The Mrs. Smith Who Figured In
the Verona Tragedy Had a
Sister Here.

HER NAME IS PEARL

But Who She Is and Where She
Is Located No Person
Knows.

A COPY OF THE LETTERS

The Pittsburg Post today contains the following account of the Verona tragedy, but all efforts to locate the Pearl mentioned in the article were unsuccessful:

When Deputy Coroner Mark Donley went to Verona yesterday he found a trunkful of interest connecting Mrs. Allen Smith and her husband who shot and killed Howard McDade because of the latter's attentions to the former. Mrs. Smith is in jail now, being held as a witness in the case. Her husband is still at large. McDade died yesterday.

Mrs. Smith's past seems cloaked in mystery. She is only 21 years old, yet there is evidence that she was married once before. She has a child four years old, now in the possession of Alma Creel, of Parkersburg, W. Va. A letter was found written by Attorney Joseph A. Watson, of Parkersburg, W. Va., and addressed to Alma Creel, stating:

"Rosa Hall informs me that you have in your possession her four-year-old child and refuse to give her up. You will save trouble and expense by giving the child up on demand. If you do not suit will be brought against you."

Rosa Hall and Mrs. Smith are one and the same. Hall is believed to be the name of her first husband. Letters from Mrs. Smith's sister, Pearl, written from Empire and East Liverpool, O., frequently refer to a child, Alma. Some of these letters are of an extremely pathetic nature.

Deputy Coroner Donley visited Mrs. Smith at the jail yesterday and tried to get some information from her. Her silence was Sphinx-like. She would not admit that she had been married twice. She would not admit she had a child. She only insisted she had never had a child by Smith. She said she had married Smith three years ago and had been living at Verona three months. Previous to that time they had lived at Scott's boarding house, in Second avenue, for a short time. That was as far back as she would go.

In a letter written to her by her sister at Empire, October 27, 1899, Pearl says:

"Pap says that as long as we have a home you shall have one, too, and we will do the best we can by you and Athal."

Another letter written on March 11 of the following year asks her:

"Are you still working at the same place?" That would indicate a separation. A postscript to that letter inquires, "Oh, yes, have you got sweet little Athal now?"

On May 14, 1900, the sister wrote from East Liverpool: "This is to let you know that we are being tossed around like a lot of old shoes. I am

here with Mrs. Nidger. Pap sold all the things. I would just love to see Athal. Well, Rosa, I suppose you have no home now, but Pap says he will try to get one next winter. He is in Cumberland. He is just like a fish out of water. I've got this paper soaking wet. Now see the big tears. I am so out of heart I could jump in the river and drown myself."

In a letter written April 18, no year being mentioned, Pearl says: "Come home, Rosa. Then you can stay when you get to be an old woman. Write soon and tell us all about it."

The tragedy has stirred Verona from one end to the other. Sympathy is divided. Just before McDade died he became repentant and called his family to his side and made his brothers kneel down and promise that they would let his end be an example to them. "It was all my fault," he said.

Wm. J. McDade, a brother of the dead man, living at 1105 Larimer avenue, East End, called at the morgue last night and identified the body. He said his brother was 19 years and 7 months old and a plasterer.

Drs. R. A. Reddick and S. D. Clark held an autopsy yesterday. The result is being held for the coroner's jury, which will hold an inquest next Monday.

Wednesday Justice of the Peace J. E. McMurray, of Verona, took McDade's ante-mortem statement. The latter said he had been shot by Smith, who had kicked in the door. He said Smith tried to kick him a second time. He was too weak to sign his name and put down a cross.

OVER AN EMBANKMENT.

Horse and Buggy Took a Grand And
Lofty Tumble of 25
Feet.

As John Littell and sister Ella were driving in from their farm on the Mechanicsburg road, seated behind a mettlesome four-year-old, they met some wagons at a narrow passway. The young horse became very much frightened and began to rear and attempt to whirl about on the retreat. Young Littell then resolved to take to the upper side of the road and let the teams pass on the lower side, next the embankment; but the horse refused to be coerced and seemed to grow frantic with fear and excitement, making a dash for the danger point, as if bent on courting danger, falling on the very edge of the embankment. The driver did not lose his presence of mind, and succeeded in reaching terra firma with his sister as horse and vehicle went rolling over and down the hill, halting at the bottom, with the steed badly shaken up and the buggy a complete wreck. Miss Littell is all right this morning, thankful to the Master for her very narrow escape. She is well known in this city, having practiced medicine on Fifth street some time since. This is the second adventure she has had with the same steed, and she has reached the conclusion that she will use a quieter, older and more sedate and well behaved animal in the future. Her numerous friends in East Liverpool are this morning congratulating her on her very narrow escape.

The accident occurred on the Southside, at a point distant about three miles from Cook's Ferry.

Went to Cumberland.

The Eclipse base ball club went to New Cumberland today, where they will play ball with the club of that place.

—Bert Green and family and Mrs. Lyman Earl spent the day at Beaver Creek.

In an Exciting Runoff Last

HORSE SCARED AT STREET CAR

Went Up Over the Sidewalk at
Col. John N. Taylor's
Residence.

BOYS WERE THROWN OUT

As Ed Loomis and George Anderson were driving west on Sixth street last evening about 8:45 o'clock the horse, which was a spirited animal, became frightened at a passing street car and ran off.

The driver was taken unaware and before he could recover control of the horse it had reached the pavement in front of the residence of Colonel J. N. Taylor.

The animal collided with the iron fence where it makes the turn at the front gate and struggled along for a distance of 20 feet, finally getting its left front leg entangled in the iron pickets and fell with its entire weight on the top of the fence, forcing the sharp points into the animal's flesh in several places.

Quite a crowd had collected by this time and an effort was at once made to extract the horse from the very uncomfortable position. It was taken by the bridle and in an effort to regain its feet fell again, the foot still being fast in the fence. When it fell the second time several more punctures were made in the animal's stomach. The horse's foot was finally freed and it was rolled from the fence onto the pavement, where it lay for some time until assisted to its feet.

The harness had been broken in several places, and a piece of the shaft and single tree was still hanging to the traces. When the horse was gotten to the street and a light struck by a bystander it was discovered that the horse was bleeding profusely from four wounds in its breast and stomach. It was taken to the barn of Burns & McQuilkin, the owners of the beast, and a veterinary summoned, who made him as comfortable as possible after the wounds had been dressed.

The horse is one of a team owned by Burns & McQuilkin, known as the "star team" and has the reputation of running off whenever an opportunity affords.

It is said the accident last night was due entirely to the lack of care on the part of the driver, as its nature was sufficiently well known to require constant watching when being driven.

The animal is badly bruised about the legs, and although slightly better this morning, it will be some time before it can be taken from the barn.

Neither of the occupants of the buggy were hurt. Both were thrown out, however, and were very fortunate in escaping serious injury.

Settled the Cases.

The case against Charles Lewis, Morris Lang and M. Goppert, which were entered by the C. L. Polk Co. for the price of directories ordered by the parties, was up in Justice Rose's court this morning and were

settled by the defendants paying the amount asked, together with the costs.

WILLIAM BROWN.

DIED WEDNESDAY NIGHT ON SOPHIA STREET.

He Was a Native of Prussia and Came To This Country Three Years Ago.

William Brown, a brushmaker, living with the family of Joseph Mack-sinberger, 151 Sophia street, died yesterday aged 51 years.

Brown was a native of Prussia and spoke no English, having been in this country but three years. He had been in this city five months and was employed in the brush factory of August Giehlen, on Fourth street.

Deceased has a brother in New York whom the authorities have notified of his brother's death, but it is hardly likely that he will reach here in time to attend the funeral.

Mr. Brown had been suffering with malaria fever for two months, and on Tuesday became much worse, dying some time Wednesday night.

Deceased was born in Posen, Prussia, where his father was engaged in the manufacture of brushes. His family there are quite wealthy, Brown, himself carried insurance on his life in a Berlin company to the amount of \$2,000. He was also a member of the brushmakers' union of New York.

The body was taken to the undertaking rooms of J. D. West, Sixth street, where it was prepared for burial.

The funeral will be delayed until tomorrow afternoon in the hope that the brother will come here from New York to take charge of the remains.

A SERIOUS CHARGE.

A Prominent Young Man of St. Clair
Township Was Ar-
rested.

On last Tuesday a paternity charge was made in the court of Justice McLane by Miss Martha E. Guyton against Otto Smith.

The parties hail from Calcutta and some difficulty was experienced in locating Smith, but on Wednesday Constable Miller succeeded in landing his man and he was arraigned at once, giving bond for his appearance at 9 o'clock this morning.

When the time arrived for trial all parties were present and it did not take long to dispose of the case. The complainant alleges that the child was born in June last, and hoped the matter might be settled by defendant keeping his promise to marry Miss Guyton.

Smith gave bond in the sum of \$500 for his appearance, in common pleas court.

BROWN ARRESTED.

Taken to Wellsville to Answer for
Shooting in the Corpo-
ration.

Yesterday afternoon a telephone message was received at the fire station from the chief of police of Wellsville to arrest George Brown, colored.

Brown was arrested by Officer Woods and taken to the fire station where he was held until the Wellsville police arrived.

Chief Morisey came to the city and took Brown to Wellsville, where he was wanted to answer to a charge of shooting in the corporation.

Very Ill.

Mrs. Wm. Hall is very ill at her home on Pleasant Heights with congestion of the lungs.

COUNCIL DECIDE TO CHANGE GRADE

Took a Trip to Pleasant Street Yesterday Afternoon and Fixed It Up

WITH THE PROPERTY OWNERS

A Culvert Will Be Put In at
the Corner of Chestnut
Street.

ONLY FOUR MEMBERS PRESENT

President Marshall and Councilmen Nice, McLane, Smith, Engineer George and Clerk Hanley yesterday afternoon went to Pleasant street, and after looking over the ground and conferring with the property holders on that thoroughfare decided to change the grade to accommodate the residents.

It was found that the same purpose could be accomplished with less filling. The street on the lower side will be lowered in order to prevent the necessity of several feet of filling on that side, while the grade for the sidewalk on the upper side will not be more than three feet above the street grade at any point.

This settlement was satisfactory to the property holders, and the councilmen moved on to the corner of Pleasant and Chestnut streets, where a storm sewer had been asked.

They decided to put in the sewer and work will be started at once.

Mike McGovern had asked that council remove some dirt from the front of his property on Lisbon street and build him a stone wall, and this was the next place viewed by the councilmen.

No decision was reached at the time, but it is probable that no action will be taken in the matter.

COURT NEWS.

The Will of the Late Daniel G. Mackintosh Admitted to Probate Today.

Lisbon, Aug. 18.—(Special.)—The will in the estate of Daniel G. Mackintosh, late of Madison township, was admitted to probate today and Alexander Mackintosh and Catherine Mackintosh were appointed administrators, no bond being required.

No will was found in the estate of Absalom Milbourne, of Hanover township, and T. J. Fox was appointed administrator with \$6,000 bond.

The Union Reform party will meet in the common pleas court room this afternoon for the purpose of nominating a county ticket. Chairman A. C. Vandyke, of Wellsville, is here to pre-side over the meeting.

Mrs. Robert G. Eels died at her home after an illness of several months. She is a sister of the late Mrs. J. A. Myers, of East Liverpool.

Having a Good Time.

A letter received today from Ed A. Neal, who is at Mt. Clemens, says he is having a good time.

Squink Morrow, night man at the power house, is also at Mt. Clemens.

A Special Train.

Uniform Rank, Knights of Pythias, are making extensive preparations to attend the Detroit convention. A special train will be run from this city.

BOYS WERE THROWN OUT

As Ed Loomis and George Anderson were driving west on Sixth street last evening about 8:45 o'clock the horse, which was a spirited animal, became frightened at a passing street car and ran off.

The driver was taken unaware and before he could recover control of the horse it had reached the pavement in front of the residence of Colonel J. N. Taylor.

The animal collided with the iron fence where it makes the turn at the front gate and struggled along for a distance of 20 feet, finally getting its left front leg entangled in the iron pickets and fell with its entire weight on the top of the fence, forcing the sharp points into the animal's flesh in several places.

Quite a crowd had collected by this time and an effort was at once made to extract the horse from the very uncomfortable position. It was taken by the bridle and in an effort to regain its feet fell again, the foot still being fast in the fence. When it fell the second time several more punctures were made in the animal's stomach. The horse's foot was finally freed and it was rolled from the fence onto the pavement, where it lay for some time until assisted to its feet.

The harness had been broken in several places, and a piece of the shaft and single tree was still hanging to the traces. When the horse was gotten to the street and a light struck by a bystander it was discovered that the horse was bleeding profusely from four wounds in its breast and stomach. It was taken to the barn of Burns & McQuilkin, the owners of the beast, and a veterinary summoned, who made him as comfortable as possible after the wounds had been dressed.

The horse is one of a team owned by Burns & McQuilkin, known as the "star team" and has the reputation of running off whenever an opportunity affords.

It is said the accident last night was due entirely to the lack of care on the part of the driver, as its nature was sufficiently well known to require constant watching when being driven.

The animal is badly bruised about the legs, and although slightly better this morning, it will be some time before it can be taken from the barn.

Neither of the occupants of the buggy were hurt. Both were thrown out, however, and were very fortunate in escaping serious injury.

Settled the Cases.

The case against Charles Lewis, Morris Lang and M. Goppert, which were entered by the C. L. Polk Co. for the price of directories ordered by the parties, was up in Justice Rose's court this morning and were

settled by the defendants paying the amount asked, together with the costs.

WILLIAM BROWN.

DIED WEDNESDAY NIGHT ON SOPHIA STREET.

He Was a Native of Prussia and Came To This Country Three Years Ago.

William Brown, a brushmaker, living with the family of Joseph Mack-sinberger, 151 Sophia street, died yesterday aged 51 years.

Brown was a native of Prussia and spoke no English, having been in this country but three years. He had been in this city five months and was employed in the brush factory of August Gicthlen, on Fourth street.

Deceased has a brother in New York whom the authorities have notified of his brother's death, but it is hardly likely that he will reach here in time to attend the funeral.

Mr. Brown had been suffering with malaria fever for two months, and on Tuesday became much worse, dying some time Wednesday night.

Deceased was born in Posen, Prussia, where his father was engaged in the manufacture of brushes. His family there are quite wealthy. Brown, himself carried insurance on his life in a Berlin company to the amount of \$2,000. He was also a member of the brushmakers' union of New York.

The body was taken to the undertaking rooms of J. D. West, Sixth street, where it was prepared for burial.

The funeral will be delayed until tomorrow afternoon in the hope that the brother will come here from New York to take charge of the remains.

A SERIOUS CHARGE.

A Prominent Young Man of St. Clair
Township Was Ar-
rested.

On last Tuesday a paternity charge was made in the court of Justice McLane by Miss Martha E. Guyton against Otto Smith.

The parties hail from Calcutta and some difficulty was experienced in locating Smith, but on Wednesday Constable Miller succeeded in landing his man and he was arraigned at once, giving bond for his appearance at 9 o'clock this morning.

When the time arrived for trial all parties were present and it did not take long to dispose of the case. The complainant alleges that the child was born in June last, and hoped the matter might be settled by defendant keeping his promise to marry Miss Guyton.

Smith gave bond in the sum of \$500 for his appearance in common pleas court.

BROWN ARRESTED.

Taken to Wellsville to Answer for
Shooting in the Corpo-
ration.

Yesterday afternoon a telephone message was received at the fire station from the chief of police of Wells-ville to arrest George Brown, colored.

Brown was arrested by Officer Woods and taken to the fire station where he was held until the Wellsville police arrived.

Chief Morisey came to the city and took Brown to Wellsville, where he was wanted to answer to a charge of shooting in the corporation.

Very Ill.

Mrs. Wm. Hall is very ill at her home on Pleasant Heights with congestion of the lungs.

COUNCIL DECIDE TO CHANGE GRADE

Took a Trip to Pleasant Street Yes-
terday Afternoon and Fixed
It Up

WITH THE PROPERTY OWNERS

A Culvert Will Be Put In at
the Corner of Chestnut
Street.

ONLY FOUR MEMBERS PRESENT

President Marshall and Councilmen Nice, McLane, Smith, Engineer George and Clerk Hanley yesterday afternoon went to Pleasant street, and after looking over the ground and conferring with the property holders on that thoroughfare decided to change the grade to accommodate the residents.

It was found that the same purpose could be accomplished with less filling. The street on the lower side will be lowered in order to prevent the necessity of several feet of filling on that side, while the grade for the sidewalk on the upper side will not be more than three feet above the street grade at any point.

This settlement was satisfactory to the property holders, and the councilmen moved on to the corner of Pleasant and Chestnut streets, where a storm sewer had been asked.

They decided to put in the sewer and work will be started at once.

Mike McGovern had asked that council remove some dirt from the front of his property on Lisbon street and build him a stone wall, and this was the next place viewed by the councilmen.

No decision was reached at the time, but it is probable that no action will be taken in the matter.

COURT NEWS.

The Will of the Late Daniel G. Mack-
intosh Admitted to Probate
Today.

Lisbon, Aug. 18.—(Special.)—The will in the estate of Daniel G. Mackintosh, late of Madison township, was admitted to probate today and Alexander Mackintosh and Catherine Mackintosh were appointed administrators, no bond being required.

No will was found in the estate of Absalom Milbourne, of Hanover township, and T. J. Fox was appointed administrator with \$6,000 bond.

The Union Reform party will meet in the common pleas court room this afternoon for the purpose of nominating a county ticket. Chairman A. C. Vandyke, of Wellsville, is here to preside over the meeting.

Mrs. Robert G. Eels died at her home after an illness of several months. She is a sister of the late Mrs. J. A. Myers, of East Liverpool.

Having a Good Time.

A letter received today from Ed A. Neal, who is at Mt. Clemens, says he is having a good time.

Squink Morrow, night man at the power house, is also at Mt. Clemens.

A Special Train.

Uniform Rank, Knights of Pythias, are making extensive preparations to attend the Detroit convention. A special train will be run from this city.

Alliance Star.

Charles Culp, a prominent citizen of
Canton, is organizing a stock com-
pany for the purpose of operating an
automobile line between this city and
Sebring. It is the intention to put on
several new machines and have a low
fare rate.

Later on the company will connect
with Salem and probably Canton, with
Alliance as the center of operations.
They would be prepared to rent a ma-
chine to parties for pleasure trips,
and it will be quite an addition to our

HUGHES DEPARTURE

Was the Chief Topic of Conversation
Among the Trenton
Potters.

True American.

The sudden departure of President
Hughes of the Brotherhood of Oper-
ative Potters, for his home in East Liv-
erpool was the chief topic of con-
versation among the potters in this
city yesterday.

The manufacturers, too, are greatly
surprised at his action, as it has com-
pletely upset their plans.

The members of the executive
board were the only persons who
knew of his intended departure.

He went west for the purpose of
conferring with the potters there, but
for what reason is known only to the
members of the executive board.

It is said that he will return in the
course of a few weeks and bring Sec-
retary Duffy with him, and that they
will make another attempt to enforce
the scale.

No meeting has yet been called by
the committee on labor of the manu-
facturers to take any action on the
kilnmen's resolutions.

This evening the jiggersmen will hold
an important meeting in Co-operative
hall.

The jiggersmen are fast gaining sym-
pathy among the other branches of
the trade and tonight a large number
of the kilnmen are expected to be ad-
mitted to membership.

GOOD WORDS.

A Toronto Correspondent Speaks of
the Hustling Qualities of East
Liverpool.

A correspondent in favoring the
early closing law in Toronto says:

"For instance, East Liverpool, one
of the busiest manufacturing towns
along the Ohio valley, full of wide
awake, up-to-date business men, who
can see their way clear to close their
places of business at 6 o'clock, and
let me add that they have a much
larger trade from the surrounding
rural districts than we have in To-
ronto."

Yellow Fever.

The railroad authorities have noti-
fied agents not to sell tickets to Tam-
pa, Florida, at present, unless the
purchaser can furnish a physician's
certificate proving him to be an im-
mune from yellow fever.

GET INSIDE.

Your Friends and Neighbors in East
Liverpool Will Show
You How.

Rubbing the back wont cure back-
ache.

A liniment may relieve, but can't
cure.

Backache comes from the inside,
from the kidneys.

Doan's Kidney Pills get inside.
They cure sick kidneys.

Here is East Liverpool proof that
this is so:

Mr. H. Thompson, of 306 Fourth
street, presser at the D. E. McNicol
pottery and resident of East Liv-
erpool for the past 45 years, says: "Dur-
ing my campaign experiences between
the years of '61 and '64 I contracted
a weakness of the kidneys, and at in-
tervals I had an aching pain across
the small of my back and was subject
to attacks of muscular rheumatism, es-
pecially in damp weather. I was fre-
quently so bad that I could scarcely
get up when down, and in fact could
hardly get around at all. I tried
many remedies endeavoring to get
rid of my trouble, but found nothing
until I got Doan's Kidney Pills at the
W. & W. pharmacy. They filled the
bill exactly, giving me almost im-
mediate relief, and warded off the last
attack."

For sale by all dealers. Price 50
cents. Foster-Milburn Co., Buffalo, N.
Y., sole agents for the U. S.

Remember the name, Doan's, and
take no other.

A Bad Hand.

C. L. Peacock, the well known shoe
man, suffers from a peculiar affection
of the hand.

Recently he noticed a spot on the
member, as though he had been bitten
by some insect. He removed it with
a knife, and now there is trouble. His
hand is much larger than usual, and
it is necessary to keep it carefully
bandaged. He is under the care of a
physician, the pain at times being in-
tense.—Coshocton Age.

Peacock was a former resident here.

Hole Has Been Located.

Edward Hole, a young man who mys-
teriously disappeared from the vicini-
ty of Sebring two years ago, has
been located by a letter which he
wrote recently to his parents.

The boy is serving with Company
G, Eighteenth infantry, now doing
some fighting in the Philippines. Hole
has been a private for several months.
He enlisted under the name of L. H.
Edwards.

The
Druggist
Knows
It is the
Best.

"After having a mishap, I suffered
with pain in my left side and a lingering
cough which grew worse and worse,"
writes Mrs. Cora Brooks, of Martin,
Franklin County, Georgia. "Last
spring I got past doing anything and my
husband went to the drug store and
called for Wine of C—, and the mer-
chant recommended Dr. Pierce's Favor-
ite Prescription, so he bought one bottle.
I began to take it as directed in the
pamphlet wrapped around the bottle.
The book said if the disease was compli-
cated with cough to take Dr. Pierce's
Golden Medical Discovery and 'Favor-
ite Prescription' alternately, and Dr.
Pierce's Pleasant Pellets, on rising every
morning. Mr. Brooks went back to the
drug store and got the 'Golden Medical
Discovery,' and I took it as directed.
The cough left me at once and I began
to get better so rapidly my husband was
astonished at my improvement. I am
now able to work on the farm and also
do the washing for two families."

Among the Trenton
Potters.

True American.

The sudden departure of President
Hughes of the Brotherhood of Opera-
tive Potters, for his home in East Liv-
erpool was the chief topic of con-
versation among the potters in this
city yesterday.

The manufacturers, too, are greatly
surprised at his action, as it has com-
pletely upset their plans.

The members of the executive
board were the only persons who
knew of his intended departure.

He went west for the purpose of
conferring with the potters there, but
for what reason is known only to the
members of the executive board.

It is said that he will return in the
course of a few weeks and bring Sec-
retary Duffy with him, and that they
will make another attempt to enforce
the scale.

No meeting has yet been called by
the committee on labor of the manu-
facturers to take any action on the
kilnmen's resolutions.

This evening the jiggermen will hold
an important meeting in Co-operative
hall.

The jiggermen are fast gaining sym-
pathy among the other branches of
the trade and tonight a large number
of the kilnmen are expected to be ad-
mitted to membership.

GOOD WORDS.

A Toronto Correspondent Speaks of
the Hustling Qualities of East
Liverpool.

A correspondent in favoring the
early closing law in Toronto says:

"For instance, East Liverpool, one
of the busiest manufacturing towns
along the Ohio valley, full of wide
awake, up-to-date business men, who
can see their way clear to close their
places of business at 6 o'clock, and
let me add that they have a much
larger trade from the surrounding
rural districts than we have in To-
ronto."

Yellow Fever.

The railroad authorities have noti-
fied agents not to sell tickets to Tam-
pa, Florida, at present, unless the
purchaser can furnish a physician's
certificate proving him to be an im-
mune from yellow fever.

Backache comes from the inside,
from the kidneys.

Doan's Kidney Pills get inside.

They cure sick kidneys.

Here is East Liverpool proof that
this is so:

Mr. H. Thompson, of 306 Fourth
street, presser at the D. E. McNicol
pottery and resident of East Liver-
pool for the past 45 years, says: "Dur-
ing my campaign experiences between
the years of '61 and '64 I contracted
a weakness of the kidneys, and at in-
tervals I had an aching pain across
the small of my back and was subject
to attacks of muscular rheumatism, es-
pecially in damp weather. I was fre-
quently so bad that I could scarcely
get up when down, and in fact could
hardly get around at all. I tried
many remedies endeavoring to get
rid of my trouble, but found nothing
until I got Doan's Kidney Pills at the
W. & W. pharmacy. They filled the
bill exactly, giving me almost imme-
diate relief, and warded off the last
attack."

A Bad Hand.

C. L. Peacock, the well known shoe
man, suffers from a peculiar affection
of the hand.

Recently he noticed a spot on the
member, as though he had been bitten
by some insect. He removed it with
a knife, and now there is trouble. His
hand is much larger than usual, and
it is necessary to keep it carefully
bandaged. He is under the care of a
physician, the pain at times being in-
tense.—Coshocton Age.

Peacock was a former resident here.

Hole Has Been Located.

Edward Hole, a young man who mys-
teriously disappeared from the vicini-
ty of Sebring two years ago, has
been located by a letter which he

A PIPE DREAM.

An Automobile Line May Take the
Place of the Proposed Street
Railway.

Alliance Star.

Charles Culp, a prominent citizen of
Canton, is organizing a stock com-
pany for the purpose of operating an
automobile line between this city and
Sebring. It is the intention to put on
several new machines and have a low
fare rate.

Later on the company will connect
with Salem and probably Canton, with
Alliance as the center of operations.
They would be prepared to rent a ma-
chine to parties for pleasure trips,
and it will be quite an addition to our
city.

Mr. Culp said he was meeting with
splendid success and that he was sure
his company would be organized.

Almost Completed.

The foundation for the temporary
building at the U. S. pottery is about
completed.

A TRAMP'S ELOQUENCE.

DELIVERED A SPLENDID TEMPERANCE LECTURE.

Told the Story of His Life and What Strong Drink Had Done to Him.

New Orleans Picayune.

A tramp asked for a free drink in a saloon. The request was granted, and when in the act of drinking the proffered beverage, one of the young men present exclaimed:

"Stop; make us a speech. It is a poor liquor that doesn't loosen a man's tongue."

The tramp hastily swallowed the drink, and as the rich liquor coursed through his blood he straightened himself and stood before them with a grace and dignity that all his rags and dirt could not obscure.

"Gentlemen," he said, "I look tonight at you and myself, and it seems to me I look upon the picture of my lost manhood. This bloated face was once as young and handsome as yours. This shambling figure once walked as proudly as yours, a man in the world of men. I, too, once had a home and friends and position. I had a wife as beautiful as an artist's dream, and I dropped the priceless pearl of her honor and respect in the wine cup, and Cleopatra-like, saw it dissolve and quaffed it down in the brimming draught. I had children as sweet and lovely as the flowers of spring, and saw them fade and die under the blighting curse of a drunkard father. I had a home where love lit the flame upon the altar and ministered before it, and I put out the holy fire, and darkness and desolation reigned in its stead. I had aspirations and ambitions that soared as high as the morning star, and broke and bruised their beautiful wings, and at last strangled them that I might be tortured with their cries no more. Today I am a husband without a wife, a father without a child, a tramp with no home to call his own, a man in whom every good impulse is dead. And all swallowed up in the maelstrom of drink."

The tramp ceased speaking. The glass fell from his nerveless fingers and shivered into a thousand fragments on the floor. The swinging doors pushed open and shut again, and when the little group about the bar looked up the tramp was gone.

High Prices for Nankin Pottery.

In London recently very high prices were given for some pieces of Nankin Chinese pottery, the purchasers being probably moved to unusual prodigality by a suspicion that after the present Chinese troubles have been settled such pottery will be more than ever difficult of procurement. Three vases, each 10 inches high, brought \$1,115, and a pair of long-necked bottles sold for \$1,050.

A Mammoth Pump.

Salem Herald.

The Deming Pump company yesterday shipped the largest pump ever manufactured by them. The pump is of the triplex variety and has a capacity of 1,000,000 gallons of water per day.

It was shipped to Chester, W. Va., the new town opposite East Liverpool, where it will be used in the waterworks system.

Trains, Engines and Shops Stopped and Steamships Floated Unpropelled. Services in the West.

Chicago, Aug. 18.—Every wheel and stroke of commerce throughout the great Southern Pacific system of railroads and steamship lines was stopped for about seven minutes during the burial of Collis P. Huntington, in New York. When the clock struck 11 in New York every hammer in all the ships ceased clanging; engines paused upon the rails and steamships floated lifelessly upon the water. In Chicago the offices remained closed all the morning, and no tickets were sold or other business transacted until after the remains were laid to rest. During the short suspension of business 50,000 men in all sections of the United States remained idle. The Chicago offices were draped with crepe, that is to remain for 30 days.

Careful attention had been given to the difference of time between San Francisco and New York in order that the observations of respect at each place might take place at exactly the same time.

"Gentlemen," he said, "I look tonight at you and myself, and it seems to me I look upon the picture of my lost manhood. This bloated face was once as young and handsome as yours. This shambling figure once walked as proudly as yours, a man in the world of men. I, too, once had a home and friends and position. Today I am a husband without a wife, a father without a child, a tramp with no home to call his own, a man in whom every good impulse is dead. And all swallowed up in the maelstrom of drink." The tramp ceased speaking. The glass fell from his nerveless fingers and shattered into a thousand fragments on the floor. High Prices for Nankin Pottery.

In London recently very high prices were given for some pieces of Nankin Chinese pottery, the purchasers being probably moved to unusual prodigality by a suspicion that after the present Chinese troubles have been settled such pottery will be more than ever difficult of procurement. Three vases, each 10 inches high, brought \$1,115, and a pair of long-necked bottles sold for \$1,050.

A Mammoth Pump.

Salem Herald.

The Deming Pump company yesterday shipped the largest pump ever manufactured by them. The pump is of the triplex variety and has a capacity of 1,000,000 gallons of water per day.

It was shipped to Chester, W. Va., the new town opposite East Liverpool, where it will be used in the waterworks system.

IN HUNTINGTON'S HONOR.

Trains, Engines and Shops Stopped and Steamships Floated Unpropelled. Services in the West.

Chicago, Aug. 18.—Every wheel and stroke of commerce throughout the great Southern Pacific system of railroads and steamship lines was stopped for about seven minutes during the burial of Collis P. Huntington, in New York. When the clock struck 11 in New York every hammer in all the ships ceased clanging; engines paused upon the rails and steamships floated lifelessly upon the water. In Chicago the offices remained closed all the morning, and no tickets were sold or other business transacted until after the remains were laid to rest. During the short suspension of business 50,000 men in all sections of the United States remained idle. The Chicago offices were draped with crepe, that is to remain for 30 days.

Careful attention had been given to the difference of time between San Francisco and New York in order that the observations of respect at each place might take place at exactly the same time.

Sacramento, Cal., Aug. 18.—Memorial service in honor of C. P. Huntington were held in the yard of the Central Pacific.

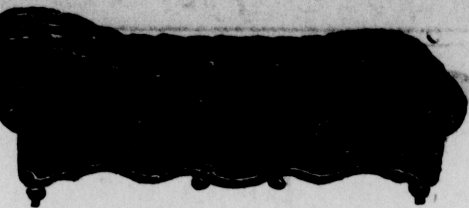

San Francisco, Aug. 18.—Services in memory of Collis P. Huntington were held at the First Presbyterian church in this city. Rev. Dr. McKenzie delivering the address. Dr. Voorsanger, Dr. Guthrie, Dr. Miller, Rev. Dr. Woods, Rev. Dr. Kelly, Bishop Nicolls and Bishop Moreland also took part. The edifice was not large enough to hold the crowd.

FUNERAL OF C. P. HUNTINGTON.

Services Conducted by Rev. Halsey — Interment in Mausoleum.

New York, Aug. 18.—Services at the funeral of the late Collis P. Huntington at the Fifth avenue residence were marked with simplicity. They were conducted by Rev. A. Woodruff Halsey, of the Presbyterian board of missions in the drawing room. The pallbearers were D. O. Mills, Edward King, Frederick P. Olcott, Edwin Hawley, Charles H. Tweed, Martin Erdmann, R. F. Schwerin and C. Adolphe Lowe.

After the exercises were concluded the casket was carried to the hearse and interment was made later in the

INGALLS' BODY HOME.

Funeral To Be Held Sunday Afternoon. Simple Reading of Episcopal Service to Occur.

Atchison, Kan., Aug. 18.—The remains of ex-Senator John G. Ingalls arrived in Atchison from East Las Vegas, N. M., and were taken to the Ingalls home, Oak Ridge.

Sunday afternoon at 2 o'clock the body will be taken to Trinity church, followed by members of the family and the pallbearers. After a simple reading of the Episcopal funeral service by Rev. John Henry Hopkins, of Chicago, an old friend of the family, the body will be conveyed to the Ingalls lot in Mt. Vernon cemetery. Only members of the family will accompany the body to Mt. Vernon, where the ceremony will be as simple as possible. The body will lie beside that of Mrs. Robert Porter Shick, of Reading, Pa., second daughter of Senator Ingalls.

A Warning From Italy Resulted In the Seizure of an Italian—Another Also Detained.

Washington, Aug. 18.—Chief Wilkie, of the United States secret service, stated that two Italians, Natable Maresca and Michil Guida, had been detained at Quarantine, New York harbor, by his orders, having come on the Kaiser Wilhelm II. Their deportation to Naples, Italy, will be recommended to the secretary of the treasury.

On Aug. 1 this government was advised from Naples that Maresca, an anarchist, was about to leave for the United States, and that he might attempt to attack the president. Whereupon an investigation was made, and while it could not be determined that Maresca was an anarchist, it was developed that he was a convict. Guida's history is being investigated.

Americans secured nearly 2,000
awards at the Paris exposition. Every
line of industry, art and skill has been

SPECIAL NOTICE.

We respectfully call the attention of our agents, and the music-loving public in general, to the fact that certain parties are manufacturing and have placed upon the market a cheap piano, bearing a name so similar to our own (with a slight difference in spelling) that the purchaser may be led to believe that he is purchasing a genuine "Sohmer Piano." We deem it our duty to those who have been favorably impressed with the fine quality and high reputation of the "Sohmer Piano" to warn them against the possibility of an imposition by unscrupulous dealers or agents. Every genuine "Sohmer Piano" has the above Trade Mark stamped upon the sounding board.

ing has been reached and that the le-
gations are safe. This is glorious, if
true, and there seems no room for
doubt.

CONGER AND HIS FAMILY.

Conger, our representative to China,
in company with his family, is safe,
thank a kind Providence and His in-
strumentalities. And now we look
eagerly for a full history of the siege
and of the gallant defense made
against savage foes.

THE FILIPINOS.

How dearly Billie Jennings Bryan
and his colleagues love the dusky Fil-
ipino. Funny, is it not, when we re-
member that that Billie's political fore-
fathers were the strongest advocates
of slavery that ever existed in this
nation? By the way, we have thou-
sands of men and women in the
United States who have loved ones on
duty in the Philippines, gallant sol-
dier boys of Uncle Sam, and these
men and women will give Billie Jen-
nings Bryan and his followers a very
black eye when the proper time ar-
rives.

TREASON.

It is an ugly word, and should not
be used against any individual with-
out careful consideration. The pen-
alty of treason is death. Treason con-
sists in giving aid and comfort to an
enemy. We are engaged in war with
the Filipinos. They plotted the whole-
sale assassination of our officers and
men in Manila. We acted on the de-
fensive, were assaulted and repelled
the assailants, driving them into their
swamps and fastnesses, losing many
of our bravest and best, from the la-
mented General Lawton down to the
brave fellows among the rank and file.
Billie Jennings Bryan and his co-
workers were then giving aid and
comfort to our common foe, and have
continued to do so ever since, and if
this be not treason, and of the most
pronounced and devilish character,
then we do not understand the mean-
ing of the word.

REPUBLICANS, BE CAREFUL.

Every Republican voter in this land
should be watchful and wide awake
in the coming campaign. No true

Republican will be careless or over-
confident, as this very fault has re-
sulted in disaster on more than one
occasion of vital importance. Pledge
yourself to be at the polls on election
day, in sunshine or in storm, and do
your utmost to see that your Repub-
lican brethren do the same. You
have become accustomed to Republi-
can prosperity. You believe that
William McKinley will be reelected by
a strong majority of electoral votes.
Be careful. Don't let this feeling on
your part keep you away from the
polls. Cast your ballot for William
McKinley, even if it be raining brick-
bats. Dodge between the bats and get
there.

PROSPERITY VS. DISASTER.

This country is enjoying a wonder-
ful era of prosperity. There is no de-
nial of this fact. Is it your desire
that this condition of affairs shall con-
tinue? If so, then cast your ballot for
William McKinley and the entire Re-
publican ticket this fall. Our finan-
cial condition is unexcelled; aye, un-
equalled in the civilized world. The
national credit is simply all that can
be desired. Our industries are hust-
ling out orders by night and by day.
Confidence in the party in power is
supreme. The dollars received by the
mechanic and workingman, in ex-
change for his labor, are worth one
hundred cents on the dollar. This
condition of affairs would be radical-
ly changed if a visionary like Billie
Jennings Bryan should be elevated to
the presidency and his party come
into power. Billie has the same old
crazy bee of 16 to 1 buzzing in his
brain pan, and he would, if unchecked,
work out his pet theory and hobby,
no matter if the nation should be
ruined and wrecked in consequence. It
behooves the working men of the coun-
try to see to it that Billie Jennings
Bryan and his crew of wreckers are
cast adrift on the ocean of experi-
ment, while the toilers anchor safely
in the harbor of industrial prosperity,
under the controlling hand and guid-
ance of Pilot William McKinley, on
the grand old ship of Republican Pro-
gress.

Behind Closed Doors.

Mrs. John Barnes is very much agi-
tated over the alleged bad treatment
of her and her numerous trials at the
hands of the local papers, and de-
clares that the next case in which she
has any part shall be heard behind
closed doors.

On next Tuesday afternoon, August
21, the fair will open and continue
three days, Tuesday, Wednesday and
Thursday, August 21, 22 and 23. Races
the last two days. Some fine step-
pers entered. Track has been reme-
died and is now in fine shape. General
improvements in every department.
Come, and bring all your relations.
Hookstown never fails to give visitors
a royally good time.

Mrs. George W. Thomas.

Mrs. Josephine, wife of George W.
Thomas, died at the home of her
daughter, Mrs. F. E. Lowe, 223 Market
street, Steubenville, Thursday night at
10:45 o'clock, aged 47 years.

She had been in poor health for a
year and bedfast since June with a
complication of ailments. She was a
daughter of Louis and Martha Thomp-
son, of Steubenville, and was married
to Mr. Thomas in Bethel church, near
Independence, July 9, 1871. Three chil-
dren were born to them, one of whom,
Eva, wife of F. E. Lowe, and the
husband survive; also one sister, Mrs.
James Walker, and two brothers,
James, of Muncie, and John, of East
Liverpool.

The deceased was a consistent mem-
ber of St. Paul's church and was re-
spected and loved by all who knew
her.

Died at the Hospital.

Delia Burford died at the State hos-
pital at Massillon last night at 10
o'clock aged 38 years.

Deceased was a sister of Robert and
Oliver Burford, of this city, and re-
sided here until a short time ago.

The remains will be brought to this
city on the train due here at 8:06 to-
night and the funeral will take place
Monday afternoon at 2 o'clock.

Interment will be made at Spring
Grove cemetery.

Improving.

Mrs. Kennedy, who has been ill at
her home on Seventh street with pa-
ralysis, is improving slightly.

who have been attending the summer
term at the Morgantown university,
have returned to their homes.

George Johnson and family, who
have been visiting his parents in Ches-
ter, have returned to their home in
Beaver.

Mrs. B. J. Dornan, of New Cumber-
land, is visiting C. F. Allison's family.
James Webb and wife, of Gas Valley,
are visiting Southside friends.

Miss Celia Crill is ill at the camp
ground.

A DAY IN WALL STREET.

Bears Got Upper Hand—Steel Group Af-
fected By Certain Reports — Indi-
cations as to Bank Statement.

New York, Aug. 18.—R. G. Dun &
Co's weekly review of trade, issued to-
day, said in part:

After a great wave of advancing
prices optimism as to business is gen-
erally dangerous. But the top was
reached the middle of March, since
which time reaction has come in every
great industry, so that consumers are
asking whether in some directions the
decline may not have been unreason-
ably large as was the advance, and
whether buying on the present basis
of prices is not fairly sure. There are
further evidences of weakness in raw
materials, notably the break in struc-
tural iron, but each one is availed of
to force heavy contracts. New York is
welcoming buyers from all over the
country in larger numbers than for
many years at this season, in dry
goods, in groceries, in jewelry and in
hardware; and if contracts are not
placed to as large a volume as expected
by this time it is because of con-
servatism of those who think they
may compel some further shading of
prices. Reports this week from other
important points of distribution show
the same eagerness to buy when the
time seems right.

It is becoming more apparent that
the bottom has been reached in prices
of iron and steel. The decline was
severe and recovery must be slow,
but gradual advances and moderately
increasing activity are more healthy
than violent changes. In no single
division is the improvement more strik-
ing than in any other. Except steel
rails all forms of iron from the ore to
the finished product are being sought
more eagerly and with less effort to
secure further concessions in price.

The first effect of the official report
of wheat condition, indicating a total
crop of only 513,997,000 bushels, was
to strengthen prices, but when the
secretary of agriculture was reported
as predicting "dollar wheat" before
the end of the year the market showed
an inclination to disagree, and the Sep-
tember option fell below 80c at New
York for the first time in two months.

Failures for the week were 161 in
the United States, against 156 last
year, and 24 in Canada, against 24 last
year.

Up In the Air.

This cyclone story is vouched for by
the Minneapolis Better Way. It is
that a cow which was picketed on a
rope was picked up by the cyclone and
carried up the length of her rope, about
60 feet, where she remained until the
storm had passed, when she quietly
climbed down the rope and resumed
her grazing.

John G. Hawley Dead.

Detroit, Aug. 18.—John G. Hawley,
of this city, a well known and widely
quoted authority on criminal law, died
at Harper hospital of uraemic poison-
ing. He was a graduate of Bethany
college, in West Virginia.

Cast your ballot for William McKinley, even if it be raining bricks. Dodge between the bats and get there.

PROSPERITY VS. DISASTER.

This country is enjoying a wonderful era of prosperity. There is no denial of this fact. Is it your desire that this condition of affairs shall continue? If so, then cast your ballot for William McKinley and the entire Republican ticket this fall. Our financial condition is unexcelled; aye, unequalled in the civilized world. The national credit is simply all that can be desired. Our industries are hustling out orders by night and by day. Confidence in the party in power is supreme. The dollars received by the mechanic and workingman, in exchange for his labor, are worth one hundred cents on the dollar. This condition of affairs would be radically changed if a visionary like Billie Jennings Bryan should be elevated to the presidency and his party come into power. Billie has the same old crazy bee of 16 to 1 buzzing in his brain pan, and he would, if unchecked, work out his pet theory and hobby, no matter if the nation should be ruined and wrecked in consequence. It behooves the working men of the country to see to it that Billie Jennings Bryan and his crew of wreckers are cast adrift on the ocean of experiment, while the toilers anchor safely in the harbor of industrial prosperity, under the controlling hand and guidance of Pilot William McKinley, on the grand old ship of Republican Progress.

Behind Closed Doors.

Mrs. John Barnes is very much agitated over the alleged bad treatment of her and her numerous trials at the hands of the local papers, and declares that the next case in which she has any part shall be heard behind closed doors.

SUBURBAN NEWS.

Mrs. George W. Thomas.

Mrs. Josephine, wife of George W. Thomas, died at the home of her daughter, Mrs. F. E. Lowe, 223 Market street, Steubenville, Thursday night at 10:45 o'clock, aged 47 years.

She had been in poor health for a year and bedfast since June with a complication of ailments. She was a daughter of Louis and Martha Thompson, of Steubenville, and was married to Mr. Thomas in Bethel church, near Independence, July 9, 1871. Three children were born to them, one of whom, Eva, wife of F. E. Lowe, and the husband survive; also one sister, Mrs. James Walker, and two brothers, James, of Muncie, and John, of East Liverpool.

The deceased was a consistent member of St. Paul's church and was respected and loved by all who knew her.

Died at the Hospital.

Delia Burford died at the State hospital at Massillon last night at 10 o'clock aged 38 years.

Deceased was a sister of Robert and Oliver Burford, of this city, and resided here until a short time ago.

The remains will be brought to this city on the train due here at 8:06 tonight and the funeral will take place Monday afternoon at 2 o'clock.

Interment will be made at Spring Grove cemetery.

A DAY IN WALL STREET.

Bears Got Upper Hand—Steel Group Affected By Certain Reports — Indications as to Bank Statement.

New York, Aug. 18.—R. G. Dun & Co.'s weekly review of trade, issued today, said in part:

After a great wave of advancing prices optimism as to business is generally dangerous. But the top was reached the middle of March, since which time reaction has come in every great industry, so that consumers are asking whether in some directions the decline may not have been unreasonably large as was the advance, and whether buying on the present basis of prices is not fairly sure. There are further evidences of weakness in raw materials, notably the break in structural iron, but each one is availed of to force heavy contracts. New York is welcoming buyers from all over the country in larger numbers than for many years at this season, in dry goods, in groceries, in jewelry and in hardware; and if contracts are not placed to as large a volume as expected by this time it is because of conservatism of those who think they may compel some further shading of prices. Reports this week from other important points of distribution show the same eagerness to buy when the time seems right.

It is becoming more apparent that the bottom has been reached in prices of iron and steel. The decline was severe and recovery must be slow, but gradual advances and moderately increasing activity are more healthy than violent changes. In no single division is the improvement more striking than in any other. Except steel rails all forms of iron from the ore to the finished product are being sought more eagerly and with less effort to secure further concessions in price.

The first effect of the official report of wheat condition, indicating a total crop of only 513,997,000 bushels, was to strengthen prices, but when the secretary of agriculture was reported as predicting "dollar wheat" before the end of the year the market showed an inclination to disagree, and the September option fell below 80c at New York for the first time in two months.

Failures for the week were 161 in the United States, against 156 last year, and 24 in Canada, against 24 last year.

Up In the Air.

This cyclone story is vouched for by the Minneapolis Better Way. It is that a cow which was picketed on a rope was picked up by the cyclone and carried up the length of her rope, about 60 feet, where she remained until the storm had passed, when she quietly climbed down the rope and resumed her grazing.

PARIS AWARDS.

Americans secured nearly 2,000 awards at the Paris exposition. Every line of industry, art and skill has been given recognition. Winners came from all parts of the grand republic.

SPECIAL NOTICE.

We respectfully call the attention of our agents, and the music-loving public in general, to the fact that certain parties are manufacturing and placing upon the market a cheap piano, bearing a name so similar to our own (with a slight difference in spelling) that the purchaser may be led to believe that he is purchasing a genuine "Sohmer Piano."

We deem it our duty to those who have been favorably impressed with the fine quality and high reputation of the "Sohmer Piano" to warn them against the possibility of an imposition by unscrupulous dealers or agents. Every genuine "Sohmer Piano" has the above Trade Mark stamped upon the sounding board.

Uncle Sam has just cause for feeling proud of his sons.

PEKING.

And now it seems assured that Peking has been reached and that the legations are safe. This is glorious, if true, and there seems no room for doubt.

CONGER AND HIS FAMILY.

Conger, our representative to China, in company with his family, is safe, thank a kind Providence and His instrumentalities. And now we look eagerly for a full history of the siege and of the gallant defense made against savage foes.

THE FILIPINOS.

How dearly Billie Jennings Bryan and his colleagues love the dusky Filipino. Funny, is it not, when we remember that that Billie's political forefathers were the strongest advocates of slavery that ever existed in this nation? By the way, we have thousands of men and women in the United States who have loved ones on duty in the Philippines, gallant soldier boys of Uncle Sam, and these men and women will give Billie Jennings Bryan and his followers a very black eye when the proper time arrives.

TREASON.

It is an ugly word, and should not be used against any individual without careful consideration. The penalty of treason is death. Treason consists in giving aid and comfort to an enemy. We are engaged in war with the Filipinos. They plotted the wholesale assassination of our officers and men in Manila. We acted on the defensive, were assaulted and repelled the assailants, driving them into their swamps and fastnesses, losing many of our bravest and best, from the lamented General Lawton down to the brave fellows among the rank and file. Billie Jennings Bryan and his co-workers were then giving aid and comfort to our common foe, and have continued to do so ever since, and if this be not treason, and of the most pronounced and devilish character, then we do not understand the meaning of the word.

REPUBLICANS, BE CAREFUL.

Every Republican voter in this land should be watchful and wide awake in the coming campaign. No true

Republican will be careless or overconfident, as this very fault has resulted in disaster on more than one occasion of vital importance. Pledge yourself to be at the polls on election day, in sunshine or in storm, and do your utmost to see that your Republican brethren do the same. You have become accustomed to Republican prosperity. You believe that William McKinley will be reelected by a strong majority of electoral votes. Be careful. Don't let this feeling on your part keep you away from the polls. Cast your ballot for William McKinley, even if it be raining brickbats. Dodge between the bats and get there.

PROSPERITY VS. DISASTER.

This country is enjoying a wonderful era of prosperity. There is no denial of this fact. Is it your desire that this condition of affairs shall continue? DESCRIPTION OF A GOOD GLAZE

Inspired by the Movement In
England to Do Away With
Lead Glaze.

LEADLESS GLAZES CHEAPEST

But the Working Properties Are So
Uncertain That Best Goods
Can't Be Produced.

A VERY INTERESTING ARTICLE

A merry war over the use of lead glaze in the potteries is on in England. An army of pink tea philanthropists headed by the Duchess of Sutherland, is agitating the substitution of leadless glazes and exerting a political pull that is evidently causing the manufacturers some sleepless nights. In a long formal reply to the attacks of these enthusiasts, Secretary Robert Jamieson of the Longton & Fenton China Manufacturers' association, sums up the manufacturers' stand in the following interesting and clear manner:

So far as the mere cost of glaze is concerned, leadless glazes are probably at least 20 to 25 per cent cheaper than lead glazes, which in itself would be a sufficient reason to induce all manufacturers to use them, were other qualities equal. The cost of the glaze is, however, a matter of little moment, if the working properties are so uncertain, that one cannot produce the largest possible proportion of leadless glazes in actual working on the large scale that has prevented and still prevents any such general use of leadless glazes as Dr. Thorpe declares to be possible. The qualities by which we judge of the working value of a glaze may be summed up as follows:

1. It must possess the same coefficient of expansion as the ware to which it is applied in order to avoid "crazing" or "peeling."
2. It must run freely enough to cover the ware perfectly, with all its modeling, but it must not flow so freely as to run off straight side pieces.
3. It must be clear and brilliant at such a temperature as will not deform the piece of ware, and must remain clear and brilliant at the lowest temperature found in a pottery oven.
4. It must possess a sufficiently high refractive index as to be capable of giving the utmost brilliancy to the colors used with it.
5. When exposed in thin layers to the slow firing and long continued cooling obtained in certain parts of pottery ovens, it must show no signs of devitrification.
6. It must be of such a nature as to dissolve certain metallic oxides without any unsightly separations and blotches.
7. It must dip easily, and must not be readily detached from the pieces before firing, during the handling necessary in cleaning and placing.

These conditions are sufficiently well filled by the lead glazes in use in the trade, whereas the best leadless glazes yet known, and this, remember, after endless experiment, fulfill these conditions only partially and imperfectly. They need greater care at every stage of the process, and they can only be produced at all satisfactory in the specially favored portions of an oven. We have, however, to fill the whole of our ovens, and therefore it is absurd to say that leadless glazes are now within reach of the manufacturers.

The Song of the Yukon River.

"There is something peculiar about the Yukon river that I have never heard of in connection with any other stream," said Captain Gray, who has been running boats on the big Alaska artery. "From the mouth of the Yukon up as far as there is any navigable water the stream is constantly singing. No matter where you are, there is a sound like that made by escaping steam. At first I used to think that maybe it came from the boiler or engines. But when we were tied up at night, with everything cold, the sound was the same. I have puzzled my brain to find an explanation of the phenomenon, but without avail. The singing goes on day and night."

"When you get up stream some distance, you can also hear the rocks rolling over the bed of the river, and this produces a most peculiar sound."—Portland Telegram.

They Didn't Play Ball.

The Tombstones claim that they outbatted and outfielded the Hilltops in the game at the camp ground Thursday night, and it was not due to the umpire that the Hilltops lost the game but on account of their poor playing. The teams meet again Tuesday evening when the Tombstones say they will demonstrate to the "kickers" that they can't play ball. It was always thus, "blame it on the umpire."

Card of Thanks.

It is very becoming, at this time, that we should attempt an expression of our grateful appreciation of the many kindnesses extended and sympathy expressed, in words and acts to our dear daughter Sarah in her late illness, and to us, as we have been called to pass through the trying ordeal of our Father's providence, as in His wisdom and mercy it has pleased Him to sever the first loving and beloved link from our family circle.

It has proved the means of revealing to us the kindly disposition of our immediate neighbors, and the many warm friends, too numerous to specify personally, as we never understood them before.

To say that we are thankful, seems to fall far short of conveying the depth of gratitude we feel in our hearts toward each and all of them; and we have not failed to make mention of their kindness as we have talked with our heavenly father at the throne of grace. In conclusion, we would adopt the language of another, with slight changes, to make it express the sentiments of our own hearts, and say:

"You have all been such very kind friends unto us, and your kindness we cannot repay."

But be not afraid, for you shall be repaid by our God at the last judgment day.

DESCRIPTION OF A GOOD GLAZE

Inspired by the Movement In
England to Do Away With
Lead Glaze.

LEADLESS GLAZES CHEAPEST

But the Working Properties Are So
Uncertain That Best Goods
Can't Be Produced.

A VERY INTERESTING ARTICLE

A merry war over the use of lead glaze in the potteries is on in England. An army of pink tea philanthropists headed by the Duchess of Sutherland, is agitating the substitution of leadless glazes and exerting a political pull that is evidently causing the manufacturers some sleepless nights. In a long formal reply to the attacks of these enthusiasts, Secretary Robert Jamieson of the Longton & Fenton China Manufacturers' association, sums up the manufacturers' stand in the following interesting and clear manner:

So far as the mere cost of glaze is concerned, leadless glazes are probably at least 20 to 25 per cent cheaper than lead glazes, which in itself would be a sufficient reason to induce all manufacturers to use them, were other qualities equal. The cost of the glaze is, however, a matter of little moment, if the working properties are so uncertain, that one cannot produce the largest possible proportion of leadless glazes in actual working on the large scale that has prevented and still prevents any such general use of leadless glazes as Dr. Thorpe declares to be possible. The qualities by which we judge of the working value of a glaze may be summed up as follows:

1. It must possess the same coefficient of expansion as the ware to which it is applied in order to avoid "crazing" or "peeling."
 2. It must run freely enough to cover the ware perfectly, with all its modeling, but it must not flow so freely as to run off straight side pieces.
 3. It must be clear and brilliant at such a temperature as will not deform the piece of ware, and must remain clear and brilliant at the lowest temperature found in a pottery oven.
 4. It must possess a sufficiently high refractive index as to be capable of giving the utmost brilliancy to the colors used with it.
 5. When exposed in thin layers to the slow firing and long continued cooling obtained in certain parts of pottery ovens, it must show no signs of devitrification.
 6. It must be of such a nature as to dissolve certain metallic oxides without any unsightly separations and blotches.
 7. It must dip easily, and must not be readily detached from the pieces before firing, during the handling necessary in cleaning and placing.
- These conditions are sufficiently well filled by the lead glazes in use in the trade, whereas the best leadless glazes yet known, and this, remember, after endless experiment, fulfill these conditions only partially and imperfectly. They need greater care at every stage of the process, and they can only be produced at all satisfactory in the specially favored portions of an oven. We have, however, to fill the whole of our ovens, and therefore it is absurd to say that leadless glazes are now within reach of the manufacturers.

The Song of the Yukon River.

"There is something peculiar about the Yukon river that I have never heard of in connection with any other stream," said Captain Gray, who has been running boats on the big Alaska artery. "From the mouth of the Yukon up as far as there is any navigable water the stream is constantly singing. No matter where you are, there is a sound like that made by escaping steam. At first I used to think that maybe it came from the boiler or engines. But when we were tied up at night, with everything cold, the sound was the same. I have puzzled my brain to find an explanation of the phenomenon, but without avail. The singing goes on day and night.

"When you get up stream some distance, you can also hear the rocks rolling over the bed of the river, and this produces a most peculiar sound."—Portland Telegram.

They Didn't Play Ball.

The Tombstones claim that they outbatted and outfielded the Hilltops in the game at the camp ground Thursday night, and it was not due to the umpire that the Hilltops lost the game but on account of their poor playing. The teams meet again Tuesday evening when the Tombstones say they will demonstrate to the "kickers" that they can't play ball. It was always thus, "blame it on the umpire."

Card of Thanks.

It is very becoming, at this time, that we should attempt an expression of our grateful appreciation of the many kindnesses extended and sympathy expressed, in words and acts to our dear daughter Sarah in her late illness, and to us, as we have been called to pass through the trying ordeal of our Father's providence, as in His wisdom and mercy it has pleased Him to sever the first loving and beloved link from our family circle.

It has proved the means of revealing to us the kindly disposition of our immediate neighbors, and the many warm friends, too numerous to specify personally, as we never understood them before.

To say that we are thankful, seems to fall far short of conveying the depth of gratitude we feel in our hearts toward each and all of them; and we have not failed to make mention of their kindness as we have talked with our heavenly father at the throne of grace. In conclusion, we would adopt the language of another, with slight changes, to make it express the sentiments of our own hearts, and say:

"You have all been such very kind friends unto us, and your kindness we cannot repay."

But be not afraid, for you shall be repaid by our God at the last judgment day.

The Song of the Yukon River.

"There is something peculiar about the Yukon river that I have never heard of in connection with any other stream," said Captain Gray, who has been running boats on the big Alaska artery. "From the mouth of the Yukon up as far as there is any navigable water the stream is constantly singing. No matter where you are, there is a sound like that made by escaping steam. At first I used to think that maybe it came from the boiler or engines. But when we were tied up at night, with everything cold, the sound was the same. I have puzzled my brain to find an explanation of the phenomenon, but without avail. The singing goes on day and night.

"When you get up stream some distance, you can also hear the rocks rolling over the bed of the river, and this produces a most peculiar sound."—Portland Telegram.

They Didn't Play Ball.

The Tombstones claim that they outbatted and outfielded the Hilltops in the game at the camp ground Thursday night, and it was not due to the umpire that the Hilltops lost the game but on account of their poor playing. The teams meet again Tuesday evening when the Tombstones say they will demonstrate to the "kickers" that they can't play ball. It was always thus, "blame it on the umpire."

His Brother Ill.

William Polk, of the Thompson House, was called to Pittsburg yesterday afternoon by the serious illness of his brother. He is ill with typhoid fever, and there is little hope for his recovery.

Badly Burned.

Sissy Green, of Franklin street, was badly burned yesterday about the face and neck. The little girl was just recovering from a severe burn received at the ice plant about a week ago.

Card of Thanks.

It is very becoming, at this time, that we should attempt an expression of our grateful appreciation of the many kindnesses extended and sympathy expressed, in words and acts to our dear daughter Sarah in her late illness, and to us, as we have been called to pass through the trying ordeal of our Father's providence, as in His wisdom and mercy it has pleased Him to sever the first loving and beloved link from our family circle.

It has proved the means of revealing to us the kindly disposition of our immediate neighbors, and the many warm friends, too numerous to specify personally, as we never understood them before.

To say that we are thankful, seems to fall far short of conveying the depth of gratitude we feel in our hearts toward each and all of them; and we have not failed to make mention of their kindness as we have talked with our heavenly father at the throne of grace. In conclusion, we would adopt the language of another, with slight changes, to make it express the sentiments of our own hearts, and say:

"You have all been such very kind friends unto us, and your kindness we cannot repay."

But be not afraid, for you shall be repaid by our God at the last judgment day.

MR. AND MRS. B. H. HODGSON AND FAMILY.

THE MINISTERS SAVED

Peking Taken After A Stubborn Resistance.

THE DOWAGER EMPRESS FLED.

She Was Accompanied by the Emperor. Prince Tuan Protected the Flight. Consul Fowler Sent Japanese Advises. Also Remey Sent Telegram.

Washington, Aug. 18.—The acting secretary of state made public the following plain telegram received from the United States consul at Che Foo:

"Che Foo, Aug. 17, Received Aug. 17, 7:55 p. m.—Seventeenth—Japanese admiral reports allies attacked Peking, east, 15. Obstinate resistance. Evening, Japanese entered capital with other forces. Immediately surrounded legations. Inmates safe. Japanese loss over 100. Chinese 300. "Fowler."

The navy department received the following cablegram from Admiral Remey:

"Taku, Aug. 16.—Just received telegram from Tien Tsin, dated 16, 10 p. m.: 'Pekin was captured on Aug. 15. Foreign legations safe. Details follow shortly.'"

A cabinet official said that unquestionably the native Christians in China, said to number several thousand, will be included in any arrangement made between this government and China incident to the cessation of hostilities. At the present stage of the Chinese situation this subject has not yet been seriously discussed by the cabinet, but there is no doubt, according to this member, that the United States is honor-bound to protect them and will sacredly look out for their security.

"What will be done with them?" he was asked.

"That has not been decided, but, rest assured, that in their disposition the honor of the United States will be fully preserved. It may be arranged for them to go to the Philippines or one of many other plans that are available may be adopted."

It was also stated that, while the matter has not been formally considered, the indemnity to be collected by the United States will not only be for the families of the victims, but also probably to compensate this government for the expense it has been put to in prosecuting the campaign.

"It has not been a heavy expense, compared to the Spanish war," he said, "but it will be sufficient, together with the indemnity to the families of the missionaries and other victims and for all losses to property of the United States government or of American citizens to make it a very serious matter, financially, to China."

London, Aug. 18.—Authoritative advices from Shanghai tell of the flight of the dowager empress and emperor.

Prince Tuan commanded the rear guard of the imperial escort, of which "Boxers" formed 65 per cent. Gen. Tung Fu Siang left the city on the arrival of the allies. All the palace treasures were sent to Hsian Fu.

The Chinese attacked New Chwang on Aug. 11, but were defeated with heavy loss by the Russians.

THE PRESIDENT WAS OVERJOYED.

Pleased With the News of the Safety of Conger and Associates.

Washington, Aug. 18.—The president was overjoyed on hearing the news of the safety of Minister Conger and his associates. The president entertained a number of friends informally at dinner tonight, among whom were several acquaintances from Canton. Later in the evening, as soon he

heard of the news, secretary Root came in from the Country club and remained for some time with the president, discussing the latest information which had come to hand.

FROM A MARINE WITH CONGER.

A Message Received at Harrisburg Announcing His Safety.

Harrisburg, Aug. 18.—James Ranck, of this city, received a cablegram from his son, Private John H. Ranck, United States marine corps, which was detailed as a special guard to Minister Conger and the legation at Peking, China. The message reads:

"I am well; there are seven of us," and came via Northern Siberia and Northern Helampo. The battalion of which Ranck was a member landed at Tien Tsin last June from off the Newark.

FERRELL ADMITS GUILT.

When His Brother Asked Him if He Killed Lane, He Said That He Did.

Columbus, O., Aug. 18.—Charles Ferrell, of Colliers, W. Va., oldest brother of the accused murderer, Joseph Ferrell, paid his brother a visit in his cell. The prisoner immediately inquired about his mother, and was told she was seriously ill. Charles asked Rosslyn: "Did you kill Lane?" He answered: "Yes, I killed him."

"What did you do it for?" the brother queried. "I cannot tell," he replied. His brother did not talk with him after that and left the jail.

FIRE IN YELLOWSTONE PARK.

Interior Department Asked War Department For Help.

Washington, Aug. 18.—Acting Superintendent Goode, of the Yellowstone national park, telegraphed the interior department that another big forest fire has broken out there and is now raging between the lake and the upper basin. The department wired authority for the employment of outsiders to assist in fighting the fire, but none could be secured.

The interior department has requested the war department to detail for this purpose some of the men engaged on the roads there.

NEARLY 2,000 PRIZES

Americans Got Many Awards at Paris.

PECK IS VERY HIGHLY PLEASED.

More Than Twice as Many Secured as at 1889 Exposition—Every Line of Industry and Art and Skill Given Recognition—Some of the Winners.

Paris, Aug. 18.—The list of awards to American exhibitors at the Paris exposition was made public. The United States, in all, secured 1,981 awards. Of these 280 were grand prizes, 486 gold medals, 583 silver medals, 422 bronze medals, 270 honorable mentions, and a long list of gold, silver and bronze medals for collaborators. Such is the record achieved by America, as announced by the French officials. Every line of industry and art and skill is given recognition. American farm products, American mines and forestry receive grand prizes and gold medals, and American cottons, woollens and silks are given to same consideration, as are American harvesting machinery, sewing machines, printing presses, liberal arts and transportation, while silverware, jewelry art and education are placed in the front. At the Paris exposition of 1889 only 1,000 prizes, including those for collaborators, were given, divided as follows: Grand prizes, 55; gold medals, 214; silver medals, 300; bronze medals, 246; honorable mentions, 229.

United States Commissioner General Peck and his associates are highly pleased with the results, as demonstrating the superiority of American products and the superiority of the character of the whole American section.

Names of those receiving silver and bronze medals and honorable mentions, with the collaborators, were not yet furnished by the committee. In a large number of classes the silver medal was the highest recognition bestowed, and may be called the highest award. Among those receiving grand prizes or gold medals were these:

SHOT THAT KILLED GOEBEL

Campbell Intimated That It Was Fired By Jim Howard — Later Said It Was One of Five Indicted.

Georgetown, Ky., Aug. 18.—The argument for the defense in the case of Caleb Powers, charged with complicity in the murder of William Goebel, was closed by ex-Governor John Young Brown. Colonel T. C. Campbell, for the prosecution, intimated that Jim Howard fired the shot, but subsequently said:

"I do not know who fired the shot that killed Goebel, but it was one of the five principals named in the indictment—Jim Howard, Berry Howard, Henry Youtsey, Harland Whitaker and 'Tallow Dick' Combs — and every one of them were here by procurement of Caleb Powers and W. S. Taylor."

At the close of Colonel Campbell's speech the court announced a modification of the instructions to the jury, defining the words "unlawful act" to be "to alarm, incite, terrorize or do bodily harm." This section instructs the jury that if Powers and others conspired to do an unlawful act, and as a result of this William Goebel was killed it should find Powers guilty of murder.

BRYAN'S TURN NEXT WEEK.

Will Speak in Nebraska and Kansas. Acted as Pallbearer at a Funeral.

Lincoln, Neb., Aug. 18.—Mr. Bryan will devote the greater part of next week to speechmaking in Nebraska and Kansas. He will make the first of a series of addresses at Wahoo, 20 miles north of Lincoln, Tuesday afternoon, and will follow this effort with four speeches on Wednesday at Auburn, Tecumseh and Pawnee respectively. Thursday forenoon will be spent in Kansas City. The afternoon of Thursday will be given over to the Populist notification ceremonies at Topeka, when he will respond to a speech by Hon. T. M. Patterson, notifying him of his nomination for the presidency by the Populist party. On Friday Mr. Bryan will speak at Manhattan, Kan., and Beatrice, Neb. Saturday he will go to South Omaha, to attend a Jackson club picnic, where he will speak.

Mr. Bryan acted as pallbearer at the funeral of a former fellow-townsmen.

PREDICTED A VICTORY.

Allison Declared the People Were Not Taking Stock in the Cry of Imperialism.

Des Moines, Ia., Aug. 18.—A conference of Republican leaders was held here to arrange for the opening of the campaign in this state. Senator Allison, Speaker Henderson, Congressman Dolliver and Congressman Lacey, members of the state central committee, and others were present. It was agreed that the campaign should open about September 20, with meetings addressed by prominent Republicans of this and other states in every congressional district. Incidentally Governor Shaw held numerous conferences in respect to the senatorial vacancy, but gave no sign as to when or whom he would appoint.

Senator Allison predicted a sweeping Republican victory in November, and said the people were not taking any stock in the cry of imperialism.

THE MINISTERS SAVED

Peking Taken After A Stubborn Resistance.

THE DOWAGER EMPRESS FLED.

She Was Accompanied by the Emperor. Prince Tuan Protected the Flight. Consul Fowler Sent Japanese Advises. Also Remy Sent Telegram.

Washington, Aug. 18.--The acting secretary of state made public the following plain telegram received from the United States consul at Che Foo:

"Che Foo, Aug. 17, Received Aug. 17, 7:55 p. m.--Seventeenth--Japanese admiral reports allies attacked Peking, east, 15. Obstinate resistance. Evening, Japanese entered capital with other forces. Immediately surrounded legations. Inmates safe. Japanese loss over 100. Chinese 300. 'Fowler.'"

The navy department received the following cablegram from Admiral Remy:

"Taku, Aug. 16.--Just received telegram from Tien Tsin, dated 16, 10 p. m.: 'Peking was captured on Aug. 15. Foreign legations safe. Details follow shortly.'"

A cabinet official said that unquestionably the native Christians in China, said to number several thousand, will be included in any arrangement made between this government and China incident to the cessation of hostilities. At the present stage of the Chinese situation this subject has not yet been seriously discussed by the cabinet, but there is no doubt, according to this member, that the United States is honor-bound to protect them and will sacredly look out for their security.

"What will be done with them?" he was asked.

"That has not been decided, but, rest assured, that in their disposition the honor of the United States will be fully preserved. It may be arranged for them to go to the Philippines or one of many other plans that are available may be adopted."

It was also stated that, while the matter has not been formally considered, the indemnity to be collected by the United States will not only be for the families of the victims, but also probably to compensate this government for the expense it has been put to in prosecuting the campaign.

"It has not been a heavy expense, compared to the Spanish war," he said, "but it will be sufficient, together with the indemnity to the families of the missionaries and other victims and for all losses to property of the United States government or of American citizens to make it a very serious matter, financially, to China."

London, Aug. 18.--Authoritative advices from Shanghai tell of the flight of the dowager empress and emperor.

Prince Tuan commanded the rear guard of the imperial escort, of which "Boxers" formed 65 per cent. Gen. Tung Fu Siang left the city on the arrival of the allies. All the palace treasures were sent to Hsian Fu.

The Chinese attacked New Chwang on Aug. 11, but were defeated with heavy loss by the Russians.

THE PRESIDENT WAS OVERJOYED.

Pleased With the News of the Safety of Conger and Associates.

Washington, Aug. 18.--The president was overjoyed on hearing the news of the safety of Minister Conger and his associates. The president entertained a number of friends informally at dinner tonight, among whom were several acquaintances from Canton. Later in the evening, as soon he

heard of the news, secretary Root came in from the Country club and remained for some time with the president, discussing the latest information which had come to hand.

FROM A MARINE WITH CONGER.

A Message Received at Harrisburg Announcing His Safety.

Harrisburg, Aug. 18.--James Ranck, of this city, received a cablegram from his son, Private John H. Ranck, United States marine corps, which was detailed as a special guard to Minister Conger and the legation at Peking, China. The message reads:

"I am well; there are seven of us," and came via Northern Siberia and Northern Helampo. The battalion of which Ranck was a member landed at Tien Tsin last June from off the Newark.

FERRELL ADMITS GUILT.

When His Brother Asked Him if He Killed Lane, He Said That He Did.

Columbus, O., Aug. 18.--Charles Ferrell, of Colliers, W. Va., oldest brother of the accused murderer, Joseph Ferrell, paid his brother a visit in his cell. The prisoner immediately inquired about his mother, and was told she was seriously ill.

FIRE IN YELLOWSTONE PARK.

Interior Department Asked War Department For Help.

Washington, Aug. 18.--Acting Superintendent Goode, of the Yellowstone national park, telegraphed the interior department that another big forest fire has broken out there and is now raging between the lake and the upper basin. The department wired authority for the employment of outsiders to assist in fighting the fire, but none could be secured.

The interior department has requested the war department to detail for this purpose some of the men engaged on the roads there.

NEARLY 2,000 PRIZES

Americans Got Many Awards at Paris.

PECK IS VERY HIGHLY PLEASED.

More Than Twice as Many Secured as at 1889 Exposition--Every Line of Industry and Art and Skill Given Recognition--Some of the Winners.

Paris, Aug. 18.--The list of awards to American exhibitors at the Paris exposition was made public. The United States, in all, secured 1,981 awards. Of these 280 were grand prizes, 486 gold medals, 583 silver medals, 422 bronze medals, 270 honorable mentions, and a long list of gold, silver and bronze medals for collaborators. Such is the record achieved by America, as announced by the French officials. Every line of industry and art and skill is given recognition. American farm products, American mines and forestry receive grand prizes and gold medals, and American cottons, woolens and silks are given the same consideration, as are American harvesting machinery, sewing machines, printing presses, liberal arts and transportation, while silverware, jewelry art and education are placed in the front. At the Paris exposition of 1889 only 1,000 prizes, including those for collaborators, were given, divided as follows: Grand prizes, 55; gold medals, 214; silver medals, 500; bronze medals, 246; honorable mentions, 229.

United States Commissioner General Peck and his associates are highly pleased with the results, as demonstrating the superiority of American products and the superiority of the character of the whole American section.

The names of those receiving silver and bronze medals and honorable mentions, with the collaborators, were not yet furnished by the committee. In a large number of classes the silver medal was the highest recognition bestowed, and may be called the highest award. Among those receiving grand prizes or gold medals were these:

SHOT THAT KILLED GOEBEL

Campbell Intimated That It Was Fired By Jim Howard -- Later Said It Was One of Five Indicted.

Georgetown, Ky., Aug. 18.--The argument for the defense in the case of Caleb Powers, charged with complicity in the murder of William Goebel, was closed by ex-Governor John Young Brown. Colonel T. C. Campbell, for the prosecution, intimated that Jim Howard fired the shot, but subsequently said:

"I do not know who fired the shot that killed Goebel, but it was one of the five principals named in the indictment--Jim Howard, Berry Howard, Henry Youtsey, Harland Whitaker and 'Tallow Dick' Combs -- and every one of them were here by procurement of Caleb Powers and W. S. Taylor."

At the close of Colonel Campbell's speech the court announced a modification of the instructions to the jury, defining the words "unlawful act" to be "to alarm, incite, terrorize or do bodily harm." This section instructs the jury that if Powers and others conspired to do an unlawful act, and as a result of this William Goebel was killed it should find Powers guilty of murder.

BRYAN'S TURN NEXT WEEK.

Will Speak in Nebraska and Kansas. Acted as Pallbearer at a Funeral.

Lincoln, Neb., Aug. 18.--Mr. Bryan will devote the greater part of next week to speechmaking in Nebraska and Kansas. He will make the first of a series of addresses at Wahoo, 20 miles north of Lincoln, Tuesday afternoon, and will follow this effort with four speeches on Wednesday at Auburn, Tecumseh and Pawnee respectively. Thursday forenoon will be spent in Kansas City. The afternoon of Thursday will be given over to the Populist notification ceremonies at Topeka, when he will respond to a speech by Hon. T. M. Patterson, notifying him of his nomination for the presidency by the Populist party. On Friday Mr. Bryan will speak at Manhattan, Kan., and Beatrice, Neb. Saturday he will go to South Omaha, to attend a Jackson club picnic, where he will speak.

Mr. Bryan acted as pallbearer at the funeral of a former fellow-townsmen.

PREDICTED A VICTORY.

Allison Declared the People Were Not Taking Stock in the Cry of Imperialism.

Des Moines, Ia., Aug. 18.--A conference of Republican leaders was held here to arrange for the opening of the campaign in this state. Senator Allison, Speaker Henderson, Congressman Dolliver and Congressman Lacey, members of the state central committee, and others were present. It was agreed that the campaign should open about September 20, with meetings addressed by prominent Republicans of this and other states in every congressional district. Incidentally Governor Shaw held numerous conferences in respect to the senatorial vacancy, but gave no sign as to when or whom he would appoint.

Senator Allison predicted a sweeping Republican victory in November, and said the people were not taking any stock in the cry of imperialism.

THE MINISTERS SAVED

Peking Taken After A Stubborn Resistance.

THE DOWAGER EMPRESS FLED.

She Was Accompanied by the Emperor. Prince Tuan Protected the Flight. Consul Fowler Sent Japanese Advances. Also Remy Sent Telegram.

Washington, Aug. 18.--The acting secretary of state made public the following plain telegram received from the United States consul at Che Foo:

"Che Foo, Aug. 17, Received Aug. 17, 7:55 p. m.--Seventeenth--Japanese admiral reports allies attacked Peking, east, 15. Obstinate resistance. Evening, Japanese entered capital with other forces. Immediately surrounded legations. Inmates safe. Japanese loss over 100. Chinese 300. 'Fowler.'"

The navy department received the following cablegram from Admiral Remy:

"Taku, Aug. 16.--Just received telegram from Tien Tsin, dated 16, 10 p. m.: 'Peking was captured on Aug. 15. Foreign legations safe. Details follow shortly.'"

A cabinet official said that unquestionably the native Christians in China, said to number several thousand, will be included in any arrangement made between this government and China incident to the cessation of hostilities. At the present stage of the Chinese situation this subject has not yet been seriously discussed by the cabinet, but there is no doubt, according to this member, that the United States is honor-bound to protect them and will sacredly look out for their security.

"What will be done with them?" he was asked.

"That has not been decided, but, rest assured, that in their disposition the honor of the United States will be fully preserved. It may be arranged for them to go to the Philippines or one of many other plans that are available may be adopted."

It was also stated that, while the matter has not been formally considered, the indemnity to be collected by the United States will not only be for the families of the victims, but also probably to compensate this government for the expense it has been put to in prosecuting the campaign.

"It has not been a heavy expense, compared to the Spanish war," he said, "but it will be sufficient, together with the indemnity to the families of the missionaries and other victims and for all losses to property of the United States government or of American citizens to make it a very serious matter, financially, to China."

London, Aug. 18.--Authoritative advices from Shanghai tell of the flight of the dowager empress and emperor.

Prince Tuan commanded the rear guard of the imperial escort, of which "Boxers" formed 65 per cent. Gen. Tung Fu Siang left the city on the arrival of the allies. All the palace treasures were sent to Hsian Fu.

The Chinese attacked New Chwang on Aug. 11, but were defeated with heavy loss by the Russians.

THE PRESIDENT WAS OVERJOYED.

Pleased With the News of the Safety of Conger and Associates.

Washington, Aug. 18.--The president was overjoyed on hearing the news of the safety of Minister Conger and his associates. The president entertained a number of friends informally at dinner tonight, among whom were several acquaintances from Canton. Later in the evening, as soon he

heard of the news, Secretary Root came in from the Country club and remained for some time with the president, discussing the latest information which had come to hand.

FROM A MARINE WITH CONGER.

A Message Received at Harrisburg Announcing His Safety.

Harrisburg, Aug. 18.--James Ranck, of this city, received a cablegram from his son, Private John H. Ranck, United States marine corps, which was detailed as a special guard to Minister Conger and the legation at Peking, China. The message reads:

"I am well; there are seven of us," and came via Northern Siberia and Northern Helamp. The battalion of which Ranck was a member landed at Tien Tsin last June from off the Newark.

FERRELL ADMITS GUILT.

When His Brother Asked Him if He Killed Lane, He Said That He Did.

Columbus, O., Aug. 18.--Charles Ferrell, of Colliers, W. Va., oldest brother of the accused murderer, Charles Ferrell, from his brother a visit in his cell. The prisoner immediately inquired about his mother, and was told she was seriously ill.

Charles asked Rosslyn: "Did you kill Lane?" He answered: "Yes, I killed him."

"What did you do it for?" the brother queried. "I cannot tell," he replied. His brother did not talk with him after that and left the jail.

FIRE IN YELLOWSTONE PARK.

Interior Department Asked War Department For Help.

Washington, Aug. 18.--Acting Superintendent Goode, of the Yellowstone national park, telegraphed the interior department that another big forest fire has broken out there and is now raging between the lake and the upper basin. The department wired authority for the employment of outsiders to assist in fighting the fire, but none could be secured.

The interior department has requested the war department to detail for this purpose some of the men engaged on the roads there.

SHOT THAT KILLED GOEBEL

Campbell Intimated That It Was Fired By Jim Howard -- Later Said It Was One of Five Indicted.

Georgetown, Ky., Aug. 18.--The argument for the defense in the case of Caleb Powers, charged with complicity in the murder of William Goebel, was closed by ex-Governor John Young Brown. Colonel T. C. Campbell, for the prosecution, intimated that Jim Howard fired the shot, but subsequently said:

"I do not know who fired the shot that killed Goebel, but it was one of the five principals named in the indictment--Jim Howard, Berry Howard, Henry Youtsey, Harland Whitaker and 'Tallow Dick' Combs -- and every one of them were here by procurement of Caleb Powers and W. S. Taylor."

At the close of Colonel Campbell's speech the court announced a modification of the instructions to the jury, defining the words "unlawful act" to be "to alarm, incite, terrorize or do bodily harm." This section instructs the jury that if Powers and others conspired to do an unlawful act, and as a result of this William Goebel was killed it should find Powers guilty of murder.

BRYAN'S TURN NEXT WEEK.

Will Speak in Nebraska and Kansas. Acted as Pallbearer at a Funeral.

Lincoln, Neb., Aug. 18.--Mr. Bryan will devote the greater part of next week to speechmaking in Nebraska and Kansas. Thursday forenoon will be spent in Kansas City. The afternoon of Thursday will be given over to the Populist notification ceremonies at Topeka, when he will respond to a speech by Hon. T. M. Patterson, notifying him of his nomination for the presidency by the Populist party. On Friday Mr. Bryan will speak at Manhattan, Kan., and Beatrice, Neb. Saturday he will go to South Omaha, to attend a Jackson club picnic, where he will speak.

Mr. Bryan acted as pallbearer at the funeral of a former fellow-townsmen.

PREDICTED A VICTORY.

Allison Declared the People Were Not Taking Stock in the Cry of Imperialism.

Des Moines, Ia., Aug. 18.--A conference of Republican leaders was held here to arrange for the opening of the campaign in this state. Senator Allison, Speaker Henderson, Congressman Dolliver and Congressman Lacey, members of the state central committee, and others were present. It was agreed that the campaign should open about September 20, with meetings addressed by prominent Republicans of this and other states in every congressional district. Incidentally Governor Shaw held numerous conferences in respect to the senatorial vacancy, but gave no sign as to when or whom he would appoint.

Senator Allison predicted a sweeping Republican victory in November, and said the people were not taking any stock in the cry of imperialism.

FAMINE SHADOWED INDIA.

BY EDWARD S. HUME.

For Twenty-five Years an American Resident of Bombay.

Having just returned from India, I have read the accounts of the famine in American papers, I have seen the pictures, I have seen the conditions in the famine districts, and I can assure you that the actual state of affairs is much more terrible than painted or pictured. And the worst of it is that, even if the June rains are entirely favorable, no relief can be expected till the crop is gathered in October. Famine photographs frequently represent half starved and dying persons lying on the street or in some field. They are poor but self respecting people, who have never been the objects of public charity

and have refused to go to famine relief camps until at last death has stared them in the face, and unbearable distress has driven them out in search of help. Weary and hungry, they have laid themselves down to rest and have died before waking. Not long before leaving India, while walking with a brother missionary at Ahmedabad, not far from his house, he pointed to a tree at the roadside and said: "The other day I saw the emaciated figure of a man lying, face down, under that tree. On going near and touching the body I found it already stiff and cold. Examining it more carefully, I found one side torn away, evidently eaten by jackals. A couple of rods away lay the dead body of an infant. A little farther on was found a woman, still alive. She was the wife of the man and mother of the child. She, too, poor thing, died before she could reach the poorhouse, which stood within sight and call of the spot where these patient, helpless ones had fallen down to die."

HINDOO PEASANT WOMAN IN HAPPY TIMES

A starving man is devoid of judgment and of most of his natural feelings. In April we received a group of famine girls. Among them was one who, although much emaciated, began to improve from the day she came to us. After a week she rapidly grew worse. In spite of everything that could be done for her she soon died. We learned at last that, while she was so ill that we were giving her a few spoonfuls of nourishment at a time, raising her gently, because she seemed unable to make any effort to help herself, and even later, when she seemed unable to see or to speak, she had been dragging herself at intervals, when we were absent, out into the garden, a distance of 50 yards, in order to get some green mangoes to eat. For the poor famine child they were deadly poison. She knew it, but the awful gnawing in her stomach made prudence impossible.

The only effective preventive to the spread of plague that has yet been discovered is inoculation with plague serum. Wherever an outbreak of the disease is imminent, inoculation stations are opened. Doctors are sent to

them; serum, instruments and everything needed for efficient work are provided, but the Hindoos have not taken kindly to this remedy. All kinds of wild rumors have been spread and have been widely believed to the effect that inoculation is most harmful; that it has been devised by the European doctors to punish the Hindoos for supposed disloyalty and as a means for destroying caste. In view of this the government offers two days' wages to every man, woman or child who is inoculated. I know a little fellow 8 years old, whose mother died and whose father is a helpless invalid. Hearing that money was paid to every person who was willing to be inoculated, this poor

little lad presented himself at one of the inoculation stations. As soon as his arm was healed he went to another station, and this thing went on until the poor boy had actually been inoculated five times in each arm for the 84 cents he received and with which he supported himself and father for six weeks.

The government has already expended more than \$47,000,000 in the free distribution of food to those who are unable to work and in employing the able-bodied at cash wages in the construction of reservoirs, irrigation ditches and other public works that will mitigate future droughts. In addition, there are generous and splendidly organized systems of private charity, the funds being supplied from every part of the civilized world and managed chiefly by American and European missionaries of long experience in India. It is the duty and privilege of every one to have some share in this sacred work of humanity. Gifts may be sent to Brown Bros. & Co., 59 Wall street, New York, treasurers of the committee of one hundred; William E. Dodge, chairman, and Dr. L. T. Chamberlain, executive director, by whom they will be cabled promptly to the responsible and representative American-Indian relief committee, under the chairmanship of United States Consul William H. Fee, at Bombay, with the veteran missionary, Robert A. Hume, as executive secretary.

The New York committee of one hundred on India famine relief co-operates with committees of the same name in Boston, New Haven, Baltimore, Washington, Indianapolis and other cities, each of which has charge of the work in its own section. The committee states that on receipt of a postal addressed "Committee of One Hundred, 73 Bible House, New York," supplies of illustrated literature are sent without charge and expressage free. The help of individuals, clubs, lodges, labor unions, employers, proprietors of hotels and summer resorts, churches, Sunday schools, young people's societies, King's Daughters, etc., is earnestly sought in distributing this free literature. Many who will lend a hand in this way can aid the cause as much as if they were able to draw a handsome check themselves.

FAMINE CHILDREN FROM GUNGERAT.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Aug. 19.—Comment by Rev. S. H. Doyle.

Topic.—The woes of the drunkard.—Prov. xxiii, 33. (Quarterly temperance meeting.)

From the day of the shame and disgrace that came upon Noah, the patriarch, as a result of drunkenness the woes of the drunkard have been unceasing, and intemperance has universally willed its awful legacies to humanity. The drunkard has not ceased to have woes, sorrows, contentions, babblings, wounds, which otherwise he would not have had, and redness of eyes. If all the woes of the world that have been the result of strong drink could be marshaled before our eyes, what a vision of horrors it would be ours to look upon! Who could endure the sight? It would be appalling in its awfulness, and the strongest nerves would be shattered at such a picture. Yet the world goes on making and selling intoxicating drinks, manufacturing drunkards, who as inevitably as the sun shines must some time taste the drunkard's woes! We cannot but exclaim, "O man, how long, how long will you go on in such a destructive way?" and "O Lord, how long, how long will this manufacture of human woes be suffered to go on?" Let us pray and labor in season and out of season for the overthrow of the traffic which makes the woes of the drunkard possible.

1. The drunkard endures physical woes. What physical woes the man brings upon himself who becomes a drunkard! The trembling limbs, the fetid breath, the reddened eyes, the

shallow cheeks, speak to us of physical woes which only experience could make it possible for us to appreciate.

2. The drunkard endures mental woes. The physical woes of the drunkard, bad as they are, are not to be compared to his mental ones. What tortures the human mind must endure as a result of this awful, cursed habit! Who could picture the mental anguish of the drunkard? Who could describe the horrors of delirium tremens or all the lesser mental woes that result from the intemperate use of strong drink? They are indescribable. They cannot be comprehended except by those who have suffered them, and may this number grow constantly less until none shall know what these horrors mean.

3. The drunkard endures woes of conscience. How conscience must—yea, does—lash the drunkard in his sobering and sober hours! At times it may be lulled to sleep, but now and again it is aroused like a sleeping lion, and the pains of hell will scarcely be harder to bear than the sufferings of the conscience stricken drunkard, who realizes the consequences of his actions not only to himself, but to his loved ones and his sin against his God.

4. The drunkard will suffer eternal woes. Drunkenness separates from God not only here, but hereafter. "The drunkard shall not enter into heaven." The Scripture pronounces his future doom. Let us not only strive to avoid such woes ourselves, but to keep others from them, and to reclaim by the power of the gospel those who have come under the power of this demon of strong drink.

Grit and Grip.

Grit and grip are small but significant words. They mean much when embodied in action. He in whom they find illustration is no weakling or failure. He is animated by an invincible spirit and by a steady grasp of the situation. He holds on under difficulty and masters opposition. He endures and triumphs. Grit and grip are needed in all life's relations, but especially in the pulpit. The modern preacher must stand by God's truth loyally and firmly and present it fully and faithfully, come what may. He is to show special tenacity and adherence to the gospel at a time when many are calling for something else and when his mettle as a loving, zealous and fearless ambassador of Jesus Christ is being tested.—Presbyterian.

The buried talent becomes the property of him who will use it.—Presbyterian Journal.

THREE CARS TOOK PLUNGE.

Train Wrecked on the Lake Shore Railroad—Number Rescued—Some Slightly Injured.

Sandusky, O., Aug. 18.—Lake Shore train No. 3, westbound, struck a broken rail near Bay bridge, about five miles west of Sandusky. The engine and two mail cars passed over the bridge safely. The next three cars, consisting of two mail and a combination car, went over the bridge into Sandusky bay in about 20 feet of water. The rest of the train left the track, but did not go over the bridge, and beyond a severe shaking up and a bad scare no one was injured in these cars. The three cars piled up in a mass in the water below, imprisoning the mail clerks and the passengers in the combination baggage and passenger coach. Not a life was lost, passengers and employes climbing through windows and doors, and being rescued from the water with slight injuries. Five trainmen were injured. They are:

BAGGAGEMAN WILLIAM FRAWLEY, of Cleveland, internally injured. CHIEF CLERK J. C. BECK, of Goshen. AL SPALDING, of Adrian. F. R. GREENING, of Austin, near Chicago.

B. S. WISE, of Chestertown. Fourteen passengers were in the combination car, of whom two, names unknown, were cut by flying glass. Their injuries were dressed before the surgeons arrived. The trainmen rescued the 14 imprisoned passengers in the combination coach. The mail clerks in the submerged car were assisted by the employees of the Portland cement works, located near the bridge.

For Twenty-five Years an American Resident of Bombay.

Having just returned from India, I have read the accounts of the famine in American papers. I have seen the pictures, I have seen the conditions in the famine districts, and I can assure you that the actual state of affairs is much more terrible than painted or pictured. And the worst of it is that, even if the June rains are entirely favorable, no relief can be expected till the crop is gathered in October. Famine photographs frequently represent half starved and dying persons lying on the street or in some field. They are poor but self respecting people, who have never been the objects of public charity

and have refused to go to famine relief camps until at last death has stared them in the face, and unbearable distress has driven them out in search of help. Weary and hungry, they have laid themselves down to rest and have died before waking. Not long before leaving India, while walking with a brother missionary at Ahmedabad, not far from his house, he pointed to a tree at the roadside and said: "The other day I saw the emaciated figure of a man lying, face down, under that tree. On going near and touching the body I found it already stiff and cold. Examining it more carefully, I found one side torn away, evidently eaten by jackals. A couple of rods away lay the dead body of an infant. A little farther on was found a woman, still alive. She was the wife of the man and mother of the child. She, too, poor thing, died before she could reach the poorhouse, which stood within sight and call of the spot where these patient, helpless ones had fallen down to die."

Scripture For the Week Beginning Aug. 10.—Comment by Rev. S. H. Doyle.
Topic.—The woes of the drunkard.—Prov. xxiii, 35. (Quarterly temperance meeting.)
From the day of the shame and disgrace that came upon Noah, the patriarch, as a result of drunkenness the woes of the drunkard have been unending, and intemperance has universally willed its awful legacies to humanity. The drunkard has not ceased to have woes, sorrows, contentions, babbings, wounds, which otherwise would not have had, and redness of eyes. If all the woes of the world that have been the result of strong drink could be marshaled before our eyes, what a vision of horrors it would be to look upon! Who could endure it? It would be appalling in its awfulness, and the strongest nerves would be shattered at such a picture. The world goes on making and selling intoxicating drinks, manufacturing drunkards, who as inevitably as the sun shines must some time taste the unkind's woes! We cannot but exclaim, "O man, how long, how long will you go on in such a destructive way?" and "O Lord, how long, how long will this manufacture of human beings be suffered to go on?" Let us try and labor in season and out of season for the overthrow of the traffic which makes the woes of the drunkard possible.
The drunkard endures physical woes. What physical woes the man endures upon himself who becomes a drunkard! The trembling limbs, the labored breath, the reddened eyes, the

shallow cheeks, speak to us of physical woes which only experience could make it possible for us to appreciate.
2. The drunkard endures mental woes. The physical woes of the drunkard, bad as they are, are not to be compared to his mental ones. What tortures the human mind must endure as a result of this awful, cursed habit! Who could picture the mental anguish of the drunkard? Who could describe the horrors of delirium tremens or all the lesser mental woes that result from the intemperate use of strong drink? They are indescribable. They cannot be comprehended except by those who have suffered them, and may this number grow constantly less until none shall know what these horrors mean.
3. The drunkard endures woes of conscience. How conscience must—yea, does—lash the drunkard in his sobering and sober hours! At times it may be lulled to sleep, but now and again it is aroused like a sleeping lion, and the pains of hell will scarcely be harder to bear than the sufferings of the conscience stricken drunkard, who realizes the consequences of his actions not only to himself, but to his loved ones and his sin against his God.

them; serum, instruments and everything needed for efficient work are provided, but the Hindoos have not taken kindly to this remedy. All kinds of wild rumors have been spread and have been widely believed to the effect that inoculation is most harmful; that it has been devised by the European doctors to punish the Hindoos for supposed disloyalty and as a means for destroying caste. In view of this the government offers two days' wages to every man, woman or child who is inoculated. I know a little fellow 8 years old, whose mother died and whose father is a helpless invalid. Hearing that money was paid to every person who was willing to be inoculated, this poor

RESCUED FAMINE GIRLS

little lad presented himself at one of the inoculation stations. As soon as his arm was healed he went to another station, and this thing went on until the poor boy had actually been inoculated five times in each arm for the 84 cents he received and with which he supported himself and father for six weeks.

The government has already expended more than \$47,000,000 in the free distribution of food to those who are unable to work and in employing the able-bodied at cash wages in the construction of reservoirs, irrigation ditches and other public works that will mitigate future droughts. In addition, there are generous and splendidly organized systems of private charity, the funds being supplied from every part of the civilized world and managed chiefly by American and European missionaries of long experience in India. It is the duty and privilege of every one to have some share in this sacred work of humanity. Gifts may be sent to Brown Bros. & Co., 59 Wall street, New York, treasurers of the committee of one hundred; William E. Dodge, chairman, and Dr. L. T. Chamberlain, executive director, by whom they will be cabled promptly to the responsible and representative American-Indian relief committee, under the chairmanship of United States Consul William H. Fee, at Bombay, with the veteran missionary, Robert A. Hume, as executive secretary.

The New York committee of one hundred on India famine relief co-operates with committees of the same name in Boston, New Haven, Baltimore, Washington, Indianapolis and other cities, each of which has charge of the work in its own section. The committee states that on receipt of a postal addressed "Committee of One Hundred, 73 Bible House, New York," supplies of illustrated literature are sent without charge and expressage free. The help of individuals, clubs, lodges, labor unions, employers, proprietors of hotels and summer resorts, churches, Sunday schools, young people's societies, King's Daughters, etc., is earnestly sought in distributing this free literature. Many who will lend a hand in this way can aid the cause as much as if they were able to draw a handsome check themselves.

Buyers of Different Lines in
New York.

New York, Aug. 18.—There was a conflict at the opening Friday to determine the market's tendency, in which the bears soon obtained the upper hand. In consequence, there was a general sagging of prices, but in no case did the fall reach a point in the railroad list. The most effective selling was in the steel stocks, the group being affected by reports of trade conflicts and expected cuts in products. The important movement of the day centered in Brooklyn Transit and Consolidated Gas. Both stocks, after momentary weakness, started upward and ended with gains. An official announcement that the much-heralded Brooklyn Transit annual report would be given out late today attached interest to the movements in the stock. No definite news accounted for the weakness in the railroad list, but the opinion prevailed that profit-taking was primarily responsible. London purchases of St. Paul failed to sustain the stock despite an increase in the earnings for the second week of August of \$20,234. Foreign purchases were about 12,000 shares in all, the inquiry from London being stimulated by further declines in money and discount rates. In the late dealings an evening up of contracts was effective in wiping out much of the day's losses. Preliminary figures of today's bank statement indicate a loss in cash by the banks of over \$7,000,000. This showing reflects the exports of gold on last Saturday as well as those of this week. But for the gold exports the banks would have gained almost \$5,000,000 on the interior currency movement and pension and interest payments of the sub-treasury. An increase in the loan item of the banks is not considered unlikely in view of the early activity in the stock market.

The bond market showed a reactionary tendency Friday, which was most pronounced in issues known as semi-speculative. Total sales, par value, \$670,000. U. S. 5s declined 1/2 and old 4s 1/4 per cent in the bid price.

Chicago Grain and Provisions.

Chicago, Aug. 18.—September, forced down by liquidation, closed 3/4c lower Friday. Corn closed 1/4c higher and oats 1/4c down. Provisions were irregular, pork closing 35c lower, lard 5c 7/8c depressed and ribs unchanged.

FOR A UNIFORM B. & O. SCHEDULE.

Conference of Operating Officials Held at Wheeling.

Wheeling, Aug. 18.—A conference of the operating department of the entire Baltimore and Ohio system was held here, at which the fall schedules were discussed. In the past the style of schedule get-up on the Baltimore and Ohio has not been uniform on all divisions, and it is to make all uniform that the officials gathered here. The fall schedule will be uniform on all divisions, as will all future schedules. In the party were the following officials:

General Superintendent Thomas Fitzgerald, of Baltimore; General Superintendent Stewart, of Chicago; General Superintendent William Gibson, of Pittsburg; General Superintendent Johnson, of Cleveland; Superintendent of Transportation D. F. Maroney, of Baltimore; Division Superintendent F. A. Husted, of Grafton; Schedule Agent J. B. Frost, of Baltimore; Division Superintendent English, of Newark, O., and others.

General Superintendent Fitzgerald admitted that the Baltimore and Ohio would likely use the Wheeling Terminal passenger station, and said a definite announcement along this line would be made soon.

Scranton, Pa., Aug. 18.—The First legislative district Democrats nominated Timothy Hayes, an officer in the United Mine Workers' assembly, to oppose T. J. Reynolds, a neutral Republican.

EPWORTH LEAGUE.

Topic For the Week Beginning Aug. 19, "The Woes of the Drunkard." Text, Prov. xxiii, 29-35.

"At the last it biteth like a serpent and stingeth like an adder."

From ancient times the evil effects of alcoholic liquors have not changed. Some kinds may be more dangerous than others, but all kinds are too dangerous to be used as a beverage. No man can safely use them except in case of extreme necessity and then under the most skilled medical advice. Even in such cases there arise questions as to the risk run. Some persons would better die than use alcoholics under any circumstances. Cases of reformed persons are not rare where a dose of brandy or other spirits would be almost certain to awaken an old appetite and result in a return to former courses of drunkenness. Better for such a one to refuse to use it even as a medicine than to invite almost certain ruin.

The Workingmen's Problem.

The saloon question has long been the storm center of the temperance movement. All attempts to control it by legislation thus far have failed to reach the desired end. License and prohibition have both proved inadequate to restrict.

The plea for the saloon has been that it is the poor man's club and he has as much right to his social enjoyment as the rich man in his club. The saloon is largely supported by workingmen. All attempts to suppress it by showing its great cost and the poverty it brings on the poor man's family by squandering of wages, by violence and vice as a result of drunkenness have accomplished little comparatively. In spite

of all reform efforts the evil grows. Vice, crime, distress, disease, discontent, increase enormously.

One new element, however, appears and gives hope. Workingmen's unions are becoming a power in the industrial world. The laborers of every kind are banding together in stronger association than ever was before known. They are becoming associated and federated for help in cases of need. When any trade is refused its rights and a strike is ordered, the union assists to support the strikers. But the questions have arisen: Shall drinking men be helped? Shall the funds of the society be used to help the family of the men out of work only, or shall the saloon also be allowed to get a share? Some trades unions are making total abstinence a feature of their associations. If this can be enlarged, we have in it a far greater power for the suppression of the saloon than any which has hitherto appeared.

Let the workingmen have their benevolent and co-operative societies and aid each other. A proper regard for safety will suggest that help cannot be given any family to be spent in beer and whisky, but all assistance must be for food, shelter and the necessities of life. Success to all unions which help the laboring man to a wider, higher, purer life! The hand of help is the hand of strength.

His Only Fear.

The undaunted Corporal Calithness, so conspicuously daring in a "pinch" at the battle of Waterloo, was asked if he did not fear they should lose the day.

"No, no," said he. "I knew we could not do that. My only fear was that we should all be killed before we had time to win it."

Judge Rice for Chief Justice.

Wilkesbarre, Pa., Aug. 18.—It is said that at the proper time the friends in this city of President Judge Charles E. Rice, of the superior court, will bring his name before Governor Stone for appointment to the supreme court bench to fill the vacancy caused by the death of Chief Justice Green.

LOCAL BREVITIES.

Born, to Mr. and Mrs. Charles Mahaffey, a son.

The Ladies of the Golden Eagle at their meeting last night initiated two new members.

M. C. Jenks, of Camden, N. J., has accepted a position in the decorating department of the Dresden pottery.

None of the Sunday boats will be able to get to Pittsburg tomorrow on account of the river being so low.

A number of people are in attendance at the Pottery league base ball game at Rock Springs this afternoon.

Mrs. R. L. Herbert and family returned to Spring Grove camp ground today after spending a week in the city.

The police force did not make an arrest last night, and for that reason Mayor Davidson is taking things easy today.

Rev. Ball, of Utica, N. Y., will occupy the pulpit at the First Presbyterian church tomorrow morning and evening.

Mrs. E. W. Hill, Miss Davis, Mrs. C. L. Jackman, Mrs. Lew C. Hertel and A. D. Hill have gone to Hollow Rock camp ground.

While drawing kiln at the Harker pottery yesterday two saggars fell on the right hand of Frank Potts and mashed two fingers.

Curt Welsh returned to this city yesterday from a Catholic institution and has secured employment in one of the potteries here.

Mr. and Mrs. W. B. Lewis, of Wheeling, arrived in the city today and will spend a week here the guest of their sons, W. F. and Ed T. Lewis.

Finance committee of council will meet Monday afternoon at 1 o'clock and they have enough business on hand to keep them all afternoon.

Prof. R. E. Rayman will lead the young men's meeting at the Y. M. C. A. tomorrow afternoon at 4 p. m. Remarks by Rev. Raymond Huston and others.

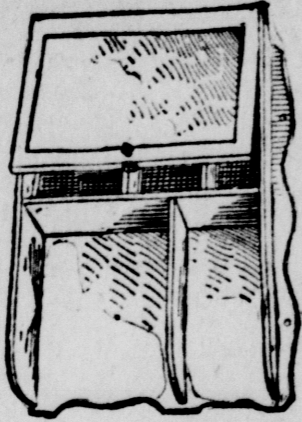

Cadiz will picnic at Rock Springs next Thursday and will bring a brass band and a base ball team with them. An all-star team will be organized in this city to meet the Cadiz players.

Mr. and Mrs. Charles Dawson returned home yesterday from England. Mrs. Dawson was there three months, but Mr. Dawson only spent seven weeks on the other side. They report a pleasant time.

Let the workingmen have their benevolent and co-operative societies and aid each other. A proper regard for safety will suggest that help cannot be given any family to be spent in beer and whisky, but all assistance must be for food, shelter and the necessities of life. Success to all unions which help the laboring man to a wider, higher, purer life! The hand of help is the hand of strength.

His Only Fear.

The undaunted Corporal Calhoun, so conspicuously daring in a "pinch" at the battle of Waterloo, was asked if he did not fear they should lose the day.

"No, no," said he. "I knew we could not do that. My only fear was that we should all be killed before we had time to win it."

Judge Rice for Chief Justice.

Wilkesbarre, Pa., Aug. 18.—It is said that at the proper time the friends in this city of President Judge Charles E. Rice, of the superior court, will bring his name before Governor Stone for appointment to the supreme court bench to fill the vacancy caused by the death of Chief Justice Green.

SURROUNDED IN MYSTERY

The Mrs. Smith Who Figured In the Verona Tragedy Had a Sister Here.

HER NAME IS PEARL

But Who She Is and Where She Is Located No Person Knows.

A COPY OF THE LETTERS

The Pittsburg Post today contains the following account of the Verona tragedy, but all efforts to locate the Pearl mentioned in the article were unsuccessful:

When Deputy Coroner Mark Donley went to Verona yesterday he found a trunkful of interest connecting Mrs. Allen Smith and her husband who shot and killed Howard McDade because of the latter's attentions to the former. Mrs. Smith is in jail now, being held as a witness in the case. Her husband is still at large. McDade died yesterday.

Mrs. Smith's past seems cloaked in mystery. She is only 21 years old, yet there is evidence that she was married once before. She has a child four years old, now in the possession of Alma Creel, of Parkersburg, W. Va. A letter was found written by Attorney Joseph A. Watson, of Parkersburg, W. Va., and addressed to Alma Creel, stating:

"Rosa Hall informs me that you have in your possession her four-year-old child and refuse to give her up. You will save trouble and expense by giving the child up on demand. If you do not suit will be brought against you."

Rosa Hall and Mrs. Smith are one and the same. Hall is believed to be the name of her first husband. Letters from Mrs. Smith's sister, Pearl, written from Empire and East Liverpool, O., frequently refer to a child, Alma. Some of these letters are of an extremely pathetic nature.

Deputy Coroner Donley visited Mrs. Smith at the jail yesterday and tried to get some information from her. Her silence was Sphinx-like. She would not admit that she had been married twice. She would not admit she had a child. She only insisted she had never had a child by Smith. She said she had married Smith three years ago and had been living at Verona three months. Previous to that time they had lived at Scott's boarding house, in Second avenue, for a short time. That was as far back as she would go.

In a letter written to her by her sister at Empire, October 27, 1899, Pearl says:

"Pap says that as long as we have a home you shall have one, too, and we will do the best we can by you and Athal."

Another letter written on March 11 of the following year asks her:

"Are you still working at the same place?" That would indicate a separation. A postscript to that letter inquires, "Oh, yes, have you got sweet little Athal now?"

On May 14, 1900, the sister wrote from East Liverpool: "This is to let you know that we are being tossed around like a lot of old shoes. I am

here with Mrs. Nidger. Pap sold all the things. I would just love to see Athal. Well, Rosa, I suppose you have no home now, but Pap says he will try to get one next winter. He is in Cumberland. He is just like a fish out of water. I've got this paper soaking wet. Now see the big tears. I am so out of heart I could jump in the river and drown myself."

In a letter written April 18, no year being mentioned, Pearl says: "Come home, Rosa. Then you can stay when you get to be an old woman. Write soon and tell us all about it."

The tragedy has stirred Verona from one end to the other. Sympathy is divided. Just before McDade died he became repentant and called his family to his side and made his brothers kneel down and promise that they would let his end be an example to them. "It was all my fault," he said.

Wm. J. McDade, a brother of the dead man, living at 1105 Larimer avenue, East End, called at the morgue last night and identified the body. He said his brother was 19 years and 7 months old and a plasterer.

Drs. R. A. Reddick and S. D. Clark held an autopsy yesterday. The result is being held for the coroner's jury, which will hold an inquest next Monday.

Wednesday Justice of the Peace J. E. McMurray, of Verona, took McDade's ante-mortem statement. The latter said he had been shot by Smith, who had kicked in the door. He said Smith tried to kick him a second time. He was too weak to sign his name and put down a cross.

OVER AN EMBANKMENT.

Horse and Buggy Took a Grand And Lofty Tumble of 25 Feet.

As John Littell and sister Ella were driving in from their farm on the Mechanicsburg road, seated behind a mettlesome four-year-old, they met some wagons at a narrow passway. The young horse became very much frightened and began to rear and attempt to whirl about on the retreat. Young Littell then resolved to take to the upper side of the road and let the teams pass on the lower side, next the embankment; but the horse refused to be coerced and seemed to grow frantic with fear and excitement, making a dash for the danger point, as if bent on courting danger, falling on the very edge of the embankment. The driver did not lose his presence of mind, and succeeded in reaching terra firma with his sister as horse and vehicle went rolling over and down the hill, halting at the bottom, with the steed badly shaken up and the buggy a complete wreck. Miss Littell is all right this morning, thankful to the Master for her very narrow escape. She is well known in this city, having practiced medicine on Fifth street some time since. This is the second adventure she has had with the same steed, and she has reached the conclusion that she will use a quieter, older and more sedate and well behaved animal in the future. Her numerous friends in East Liverpool are this morning congratulating her on her very narrow escape.

The accident occurred on the Southside, at a point distant about three miles from Cook's Ferry.

Went to Cumberland.

The Eclipse base ball club went to New Cumberland today, where they will play ball with the club of that place.

—Bert Green and family and Mrs. Lyman Earl spent the day at Beaver Creek.

IMPALED ON A PICKET FENCE

Ed. Loomis and George Anderson In an Exciting Runoff Last Night.

HORSE SCARED AT STREET CAR

Went Up Over the Sidewalk at Col. John N. Taylor's Residence.

BOYS WERE THROWN OUT

As Ed Loomis and George Anderson were driving west on Sixth street last evening about 8:45 o'clock the horse, which was a spirited animal, became frightened at a passing street car and ran off.

The driver was taken unaware and before he could recover control of the horse it had reached the pavement in front of the residence of Colonel J. N. Taylor.

The animal collided with the iron fence where it makes the turn at the front gate and struggled along for a distance of 20 feet, finally getting its left front leg entangled in the iron pickets and fell with its entire weight on the top of the fence, forcing the sharp points into the animal's flesh in several places.

Quite a crowd had collected by this time and an effort was at once made to extract the horse from the very uncomfortable position. It was taken by the bridle and in an effort to regain its feet fell again, the foot still being fast in the fence. When it fell the second time several more punctures were made in the animal's stomach. The horse's foot was finally freed and it was rolled from the fence onto the pavement, where it lay for some time until assisted to its feet.

The harness had been broken in several places, and a piece of the shaft and single tree was still hanging to the traces. When the horse was gotten to the street and a light struck by a bystander it was discovered that the horse was bleeding profusely from four wounds in its breast and stomach. It was taken to the barn of Burns & McQuilkin, the owners of the beast, and a veterinary summoned, who made him as comfortable as possible after the wounds had been dressed.

The horse is one of a team owned by Burns & McQuilkin, known as the "star team" and has the reputation of running off whenever an opportunity affords.

It is said the accident last night was due entirely to the lack of care on the part of the driver, as its nature was sufficiently well known to require constant watching when being driven.

The animal is badly bruised about the legs, and although slightly better this morning, it will be some time before it can be taken from the barn.

Neither of the occupants of the buggy were hurt. Both were thrown out, however, and were very fortunate in escaping serious injury.

Settled the Cases.

The case against Charles Lewis, Morris Lang and M. Goppert, which were entered by the C. L. Polk Co. for the price of directories ordered by the parties, was up in Justice Rose's court this morning and were

settled by the defendants paying the amount asked, together with the costs.

WILLIAM BROWN.

DIED WEDNESDAY NIGHT ON SOPHIA STREET.

He Was a Native of Prussia and Came To This Country Three Years Ago.

William Brown, a brushmaker, living with the family of Joseph Mack-sinberger, 151 Sophia street, died yesterday aged 51 years.

Brown was a native of Prussia and spoke no English, having been in this country but three years. He had been in this city five months and was employed in the brush factory of August Gichlen, on Fourth street.

Deceased has a brother in New York whom the authorities have notified of his brother's death, but it is hardly likely that he will reach here in time to attend the funeral.

Mr. Brown had been suffering with malaria fever for two months, and on Tuesday became much worse, dying some time Wednesday night.

Deceased was born in Posen, Prussia, where his father was engaged in the manufacture of brushes. His family there are quite wealthy. Brown, himself carried insurance on his life in a Berlin company to the amount of \$2,000. He was also a member of the brushmakers' union of New York.

The body was taken to the undertaking rooms of J. D. West, Sixth street, where it was prepared for burial.

The funeral will be delayed until tomorrow afternoon in the hope that the brother will come here from New York to take charge of the remains.

A SERIOUS CHARGE.

A Prominent Young Man of St. Clair Township Was Arrested.

On last Tuesday a paternity charge was made in the court of Justice McLane by Miss Martha E. Guyton against Otto Smith.

The parties hail from Calcutta and some difficulty was experienced in locating Smith, but on Wednesday Constable Miller succeeded in landing his man and he was arraigned at once, giving bond for his appearance at 9 o'clock this morning.

When the time arrived for trial all parties were present and it did not take long to dispose of the case. The complainant alleges that the child was born in June last, and hoped the matter might be settled by defendant keeping his promise to marry Miss Guyton.

Smith gave bond in the sum of \$500 for his appearance in common pleas court.

BROWN ARRESTED.

Taken to Wellsville to Answer for Shooting in the Corporation.

Yesterday afternoon a telephone message was received at the fire station from the chief of police of Wellsville to arrest George Brown, colored.

Brown was arrested by Officer Woods and taken to the fire station where he was held until the Wellsville police arrived.

Chief Morisey came to the city and took Brown to Wellsville, where he was wanted to answer to a charge of shooting in the corporation.

Very Ill.

Mrs. Wm. Hall is very ill at her home on Pleasant Heights with congestion of the lungs.

COUNCIL DECIDE TO CHANGE GRADE

Took a Trip to Pleasant Street Yesterday Afternoon and Fixed It Up

WITH THE PROPERTY OWNERS

A Culvert Will Be Put In at the Corner of Chestnut Street.

ONLY FOUR MEMBERS PRESENT

President Marshall and Councilmen Nice, McLane, Smith, Engineer George and Clerk Hanley yesterday afternoon went to Pleasant street, and after looking over the ground and conferring with the property holders on that thoroughfare decided to change the grade to accommodate the residents.

It was found that the same purpose could be accomplished with less filling. The street on the lower side will be lowered in order to prevent the necessity of several feet of filling on that side, while the grade for the sidewalk on the upper side will not be more than three feet above the street grade at any point.

This settlement was satisfactory to the property holders, and the councilmen moved on to the corner of Pleasant and Chestnut streets, where a storm sewer had been asked.

They decided to put in the sewer and work will be started at once.

Mike McGovern had asked that council remove some dirt from the front of his property on Lisbon street and build him a stone wall, and this was the next place viewed by the councilmen.

No decision was reached at the time, but it is probable that no action will be taken in the matter.

COURT NEWS.

The Will of the Late Daniel G. Mackintosh Admitted to Probate Today.

Lisbon, Aug. 18.—(Special.)—The will in the estate of Daniel G. Mackintosh, late of Madison township, was admitted to probate today and Alexander Mackintosh and Catherine Mackintosh were appointed administrators, no bond being required.

No will was found in the estate of Absalom Milbourne, of Hanover township, and T. J. Fox was appointed administrator with \$6,000 bond.

The Union Reform party will meet in the common pleas court room this afternoon for the purpose of nominating a county ticket. Chairman A. C. Vandyke, of Wellsville, is here to preside over the meeting.

Mrs. Robert G. Eels died at her home after an illness of several months. She is a sister of the late Mrs. J. A. Myers, of East Liverpool.

Having a Good Time.

A letter received today from Ed A. Neal, who is at Mt. Clemens, says he is having a good time.

Squink Morrow, night man at the power house, is also at Mt. Clemens.

A Special Train.

Uniform Rank, Knights of Pythias, are making extensive preparations to attend the Detroit convention. A special train will be run from this city.

A PIPE DREAM.

An Automobile Line May Take the
Place of the Proposed Street
Railway.

Alliance Star.

Charles Culp, a prominent citizen of
Canton, is organizing a stock com-
pany for the purpose of operating an
automobile line between this city and
Sebring. It is the intention to put on
several new machines and have a low
fare rate.

Later on the company will connect
with Salem and probably Canton, with
Alliance as the center of operations.
They would be prepared to rent a ma-
chine to parties for pleasure trips,
and it will be quite an addition to our
city.

Mr. Culp said he was meeting with
splendid success and that he was sure
his company would be organized.

Almost Completed.

The foundation for the temporary
building at the U. S. pottery is about
completed.

HUGHES DEPARTURE

Was the Chief Topic of Conversation
Among the Trenton
Potters.

True American.

The sudden departure of President
Hughes of the Brotherhood of Opera-
tive Potters, for his home in East Liv-
erpool was the chief topic of con-
versation among the potters in this
city yesterday.

The manufacturers, too, are greatly
surprised at his action, as it has com-
pletely upset their plans.

The members of the executive
board were the only persons who
knew of his intended departure.

He went west for the purpose of
conferring with the potters there, but
for what reason is known only to the
members of the executive board.

It is said that he will return in the
course of a few weeks and bring Sec-
retary Duffy with him, and that they
will make another attempt to enforce
the scale.

No meeting has yet been called by
the committee on labor of the manu-
facturers to take any action on the
kilnmen's resolutions.

This evening the jiggermen will hold
an important meeting in Co-operative
hall.

The jiggermen are fast gaining sym-
pathy among the other branches of
the trade and tonight a large number
of the kilnmen are expected to be ad-
mitted to membership.

GOOD WORDS.

A Toronto Correspondent Speaks of
the Hustling Qualities of East
Liverpool.

A correspondent in favoring the
early closing law in Toronto says:

"For instance, East Liverpool, one
of the busiest manufacturing towns
along the Ohio valley, full of wide
awake, up-to-date business men, who
can see their way clear to close their
places of business at 6 o'clock, and
let me add that they have a much
larger trade from the surrounding
rural districts than we have in To-
ronto."

Yellow Fever.

The railroad authorities have noti-
fied agents not to sell tickets to Tam-
pa, Florida, at present, unless the
purchaser can furnish a physician's
certificate proving him to be an im-
mune from yellow fever.

GET INSIDE.

Rubbing the back wont cure back-

A liniment may relieve, but can't

Backache comes from the inside,
from the kidneys.

Doan's Kidney Pills get inside.

They cure sick kidneys.

Here is East Liverpool proof that
this is so:

Mr. H. Thompson, of 306 Fourth
street, presser at the D. E. McNicol
pottery and resident of East Liver-
pool for the past 45 years, says: "Dur-
ing my campaign experiences between
the years of '61 and '64 I contracted
a weakness of the kidneys, and at in-
tervals I had an aching pain across
the small of my back and was subject
to attacks of muscular rheumatism, es-
pecially in damp weather. I was fre-
quently so bad that I could scarcely
get up when down, and in fact could
hardly get around at all. I tried
many remedies endeavoring to get
rid of my trouble, but found nothing
until I got Doan's Kidney Pills at the
W. & W. pharmacy. They filled the
bill exactly, giving me almost imme-
diate relief, and warded off the last
attack."

A Bad Hand.

C. L. Peacock, the well known shoe
man, suffers from a peculiar affection
of the hand.

Recently he noticed a spot on the
member, as though he had been bitten
by some insect. He removed it with
a knife, and now there is trouble. His
hand is much larger than usual, and
it is necessary to keep it carefully
bandaged. He is under the care of a
physician, the pain at times being in-
tense.—Coshocton Age.

Peacock was a former resident here.

Hole Has Been Located.

Edward Hole, a young man who mys-
teriously disappeared from the vicin-
ity of Sebring two years ago, has
been located by a letter which he

Druggist
Knows
It is the
Best.

"After having a mishap, I suffered
with pain in my left side and a lingering
cough which grew worse and worse,"
writes Mrs. Cora Brooks, of Martin,
Franklin County, Georgia. "Last
spring I got past doing anything and my
husband went to the drug store and
called for Wine of C—, and the mer-
chant recommended Dr. Pierce's Favor-
ite Prescription, so he bought one bottle.
I began to take it as directed in the
pamphlet wrapped around the bottle.
The book said if the disease was compli-
cated with cough to take Dr. Pierce's
Golden Medical Discovery and 'Favor-
ite Prescription' alternately, and Dr.
Pierce's Pleasant Pellets, on rising every
morning. Mr. Brooks went back to the
drug store and got the 'Golden Medical
Discovery,' and I took it as directed.
The cough left me at once and I began
to get better so rapidly my husband was
astonished at my improvement. I am
now able to work on the farm and also
do the washing for two families."

A TRAMP'S ELOQUENCE.

DELIVERED A SPLENDID TEMPERANCE LECTURE.

Told the Story of His Life and What Strong Drink Had Done to Him.

New Orleans Picayune.

A tramp asked for a free drink in a saloon. The request was granted, and when in the act of drinking the proffered beverage, one of the young men present exclaimed:

"Stop; make us a speech. It is a poor liquor that doesn't loosen a man's tongue."

The tramp hastily swallowed the drink, and as the rich liquor coursed through his blood he straightened himself and stood before them with a grace and dignity that all his rags and dirt could not obscure.

"Gentlemen," he said, "I look tonight at you and myself, and it seems to me I look upon the picture of my lost manhood. This bloated face was once as young and handsome as yours. This shambling figure once walked as proudly as yours, a man in the world of men. I, too, once had a home and friends and position. I had a wife as beautiful as an artist's dream, and I dropped the priceless pearl of her honor and respect in the wine cup, and Cleopatra-like, saw it dissolve and quaffed it down in the brimming draught. I had children as sweet and lovely as the flowers of spring, and saw them fade and die under the blighting curse of a drunkard father. I had a home where love lit the flame upon the altar and ministered before it, and I put out the holy fire, and darkness and desolation reigned in its stead. I had aspirations and ambitions that soared as high as the morning star, and broke and bruised their beautiful wings, and at last strangled them that I might be tortured with their cries no more. Today I am a husband without a wife, a father without a child, a tramp with no home to call his own, a man in whom every good impulse is dead. And all swallowed up in the maelstrom of drink."

The tramp ceased speaking. The glass fell from his nerveless fingers and shattered into a thousand fragments on the floor. The swinging doors pushed open and shut again, and when the little group about the bar looked up the tramp was gone.

High Prices for Nankin Pottery.

In London recently very high prices were given for some pieces of Nankin Chinese pottery, the purchasers being probably moved to unusual prodigality by a suspicion that after the present Chinese troubles have been settled such pottery will be more than ever difficult of procurement. Three vases, each 10 inches high, brought \$1,115, and a pair of long-necked bottles sold for \$1,050.

A Mammoth Pump.

Salem Herald.

The Deming Pump company yesterday shipped the largest pump ever manufactured by them. The pump is of the triplex variety and has a capacity of 1,000,000 gallons of water per day.

IN HUNTINGTON'S HONOR.

Trains, Engines and Shops Stopped and Steamships Floated Unpropelled. Services in the West.

Chicago, Aug. 18.—Every wheel and stroke of commerce throughout the great Southern Pacific system of railroads and steamship lines was stopped for about seven minutes during the burial of Collis P. Huntington, in New York. When the clock struck 11 in New York every hammer in all the ships ceased clanging; engines paused upon the rails and steamships floated lifelessly upon the water. In Chicago the offices remained closed all the morning, and no tickets were sold or other business transacted until after the remains were laid to rest. During the short suspension of business 50,000 men in all sections of the United States remained idle. The Chicago offices were draped with crepe, that is to remain for 30 days.

Careful attention had been given to the difference of time between San Francisco and New York in order that the observations of respect at each place might take place at exactly the same time.

Sacramento, Cal., Aug. 18.—Memorial service in honor of C. P. Huntington were held in the yard of the Central Pacific.

San Francisco, Aug. 18.—Services in memory of Collis P. Huntington were held at the First Presbyterian church in this city. Rev. Dr. McKenzie delivering the address. Dr. Voorsanger, Dr. Guthrie, Dr. Miller, Rev. Dr. Woods, Rev. Dr. Kelly, Bishop Nicolls and Bishop Moreland also took part. The edifice was not large enough to hold the crowd.

A Warning From Italy Resulted In the Seizure of an Italian—Another Also Detained.

Washington, Aug. 18.—Chief Wilkie, of the United States secret service, stated that two Italians, Natable Maresca and Michil Guida, had been detained at Quarantine, New York harbor, by his orders, having come on the Kaiser Wilhelm II. Their deportation to Naples, Italy, will be recommended to the secretary of the treasury.

On Aug. 1 this government was advised from Naples that Maresca, an anarchist, was about to leave for the United States, and that he might attempt to attack the president. Whereupon an investigation was made, and while it could not be determined that Maresca was an anarchist, it was developed that he was a convict. Guida's history is being investigated.

CONGER AND HIS FAMILY.

Conger, our representative to China, in company with his family, is safe, thank a kind Providence and His instrumentalities. And now we look eagerly for a full history of the siege and of the gallant defense made against savage foes.

THE FILIPINOS.

How dearly Billie Jennings Bryan and his colleagues love the dusky Filipino. Funny, is it not, when we remember that that Billie's political forefathers were the strongest advocates of slavery that ever existed in this nation? By the way, we have thousands of men and women in the United States who have loved ones on duty in the Philippines, gallant soldier boys of Uncle Sam, and these men and women will give Billie Jennings Bryan and his followers a very black eye when the proper time arrives.

TREASON.

It is an ugly word, and should not be used against any individual without careful consideration. The penalty of treason is death. Treason consists in giving aid and comfort to an enemy. We are engaged in war with the Filipinos. They plotted the wholesale assassination of our officers and men in Manila. We acted on the defensive, were assaulted and repelled the assailants, driving them into their swamps and fastnesses, losing many of our bravest and best, from the lamented General Lawton down to the brave fellows among the rank and file. Billie Jennings Bryan and his co-workers were then giving aid and comfort to our common foe, and have continued to do so ever since, and if this be not treason, and of the most pronounced and devilish character, then we do not understand the meaning of the word.

REPUBLICANS, BE CAREFUL.

Every Republican voter in this land should be watchful and wide awake in the coming campaign. No true

Republican will be careless or overconfident, as this very fault has resulted in disaster on more than one occasion of vital importance. Pledge yourself to be at the polls on election day, in sunshine or in storm, and do your utmost to see that your Republican brethren do the same. You have become accustomed to Republican prosperity. You believe that William McKinley will be reelected by a strong majority of electoral votes. Be careful. Don't let this feeling on your part keep you away from the polls. Cast your ballot for William McKinley, even if it be raining bricks. Dodge between the bats and get there.

PROSPERITY VS. DISASTER.

This country is enjoying a wonderful era of prosperity. There is no denial of this fact. Is it your desire that this condition of affairs shall continue? If so, then cast your ballot for William McKinley and the entire Republican ticket this fall. Our financial condition is unexcelled; aye, unequalled in the civilized world. The national credit is simply all that can be desired. Our industries are hustling out orders by night and by day. Confidence in the party in power is supreme. The dollars received by the mechanic and workingman, in exchange for his labor, are worth one hundred cents on the dollar. This condition of affairs would be radically changed if a visionary like Billie Jennings Bryan should be elevated to the presidency and his party come into power. Billie has the same old crazy bee of 16 to 1 buzzing in his brain pan, and he would, if unchecked, work out his pet theory and hobby, no matter if the nation should be ruined and wrecked in consequence. It behooves the working men of the country to see to it that Billie Jennings Bryan and his crew of wreckers are cast adrift on the ocean of experiment, while the toilers anchor safely in the harbor of industrial prosperity, under the controlling hand and guidance of Pilot William McKinley, on the grand old ship of Republican Progress.

A DAY IN WALL STREET.

Bears Got Upper Hand—Steel Group Affected By Certain Reports—Indications as to Bank Statement.

New York, Aug. 18.—R. G. Dun & Co's weekly review of trade, issued today, said in part:

After a great wave of advancing prices optimism as to business is generally dangerous. But the top was reached the middle of March, since which time reaction has come in every great industry, so that consumers are asking whether in some directions the decline may not have been unreasonably large as to the advance, and whether buying on the present basis of prices is not fairly sure. There are further evidences of weakness in raw materials, notably the break in structural iron, but each one is availed of to place heavy contracts. New York is welcoming buyers from all over the country in larger numbers than for many years at this season, in dry goods, in groceries, in jewelry and in hardware; and if contracts are not placed to as large a volume as expected by this time it is because of conservatism of those who think they may compel some further shading of prices. Reports this week from other important points of distribution show the same eagerness to buy when the time seems right.

It is becoming more apparent that the bottom has been reached in prices of iron and steel. The decline was severe and recovery must be slow, but gradual advances and moderately increasing activity are more healthy than violent changes. In no single division is the improvement more striking than in any other. Except steel rails all forms of iron from the ore to the finished product are being sought more eagerly and with less effort to secure further concessions in price.

The first effect of the official report of wheat condition, indicating a total crop of only 513,997,000 bushels, was to strengthen prices, but when the secretary of agriculture was reported as predicting "dollar wheat" before the end of the year the market showed an inclination to disagree, and the September option fell below 80c at New York for the first time in two months.

Failures for the week were 161 in the United States, against 156 last year, and 24 in Canada, against 24 last year.

Up in the Air.

This cyclone story is vouched for by the Minneapolis Better Way. It is that a cow which was picketed on a rope was picked up by the cyclone and carried up the length of her rope, about 60 feet, where she remained until the storm had passed, when she quietly climbed down the rope and resumed her grazing.

DESCRIPTION OF A GOOD GLAZE

Inspired by the Movement In
England to Do Away With
Lead Glaze.

LEADLESS GLAZES CHEAPEST

But the Working Properties Are So
Uncertain That Best Goods
Can't Be Produced.

A VERY INTERESTING ARTICLE

A merry war over the use of lead glaze in the potteries is on in England. An army of pink tea philanthropists headed by the Duchess of Sutherland, is agitating the substitution of leadless glazes and exerting a political pull that is evidently causing the manufacturers some sleepless nights. In a long formal reply to the attacks of these enthusiasts, Secretary Robert Jamieson of the Longton & Fenton China Manufacturers' association, sums up the manufacturers' stand in the following interesting and clear manner:

So far as the mere cost of glaze is concerned, leadless glazes are probably at least 20 to 25 per cent cheaper than lead glazes, which in itself would be a sufficient reason to induce all manufacturers to use them, were other qualities equal. The cost of the glaze is, however, a matter of little moment, if the working properties are so uncertain, that one cannot produce the largest possible proportion of leadless glazes in actual working on the large scale that has prevented and still prevents any such general use of leadless glazes as Dr. Thorpe declares to be possible. The qualities by which we judge of the working value of a glaze may be summed up as follows:

1. It must possess the same coefficient of expansion as the ware to which it is applied in order to avoid "crazing" or "peeling."
2. It must run freely enough to cover the ware perfectly, with all its modeling, but it must not flow so freely as to run off straight side pieces.
3. It must be clear and brilliant at such a temperature as will not deform the piece of ware, and must remain clear and brilliant at the lowest temperature found in a pottery oven.
4. It must possess a sufficiently high refractive index as to be capable of giving the utmost brilliancy to the colors used with it.
5. When exposed in thin layers to the slow firing and long continued cooling obtained in certain parts of pottery ovens, it must show no signs of devitrification.
6. It must be of such a nature as to dissolve certain metallic oxides without any unsightly separations and blotches.
7. It must dip easily, and must not be readily detached from the pieces before firing, during the handling necessary in cleaning and placing.

These conditions are sufficiently well filled by the lead glazes in use in the trade, whereas the best leadless glazes yet known, and this, remember, after endless experiment, fulfill these conditions only partially and imperfectly. They need greater care at every stage of the process, and they can only be produced at all satisfactory in the specially favored portions of an oven. We have, however, to fill the whole of our ovens, and therefore it is absurd to say that leadless glazes are now within reach of the manufacturers.

The Song of the Yukon River.

"There is something peculiar about the Yukon river that I have never heard of in connection with any other stream," said Captain Gray, who has been running boats on the big Alaska artery. "From the mouth of the Yukon up as far as there is any navigable water the stream is constantly singing. No matter where you are, there is a sound like that made by escaping steam. At first I used to think that maybe it came from the boiler or engines. But when we were tied up at night, with everything cold, the sound was the same. I have puzzled my brain to find an explanation of the phenomenon, but without avail. The singing goes on day and night."

"When you get up stream some distance, you can also hear the rocks rolling over the bed of the river, and this produces a most peculiar sound."—Portland Telegram.

They Didn't Play Ball.

The Tombstones claim that they outbatted and outfielded the Hilltops in the game at the camp ground Thursday night, and it was not due to the umpire that the Hilltops lost the game but on account of their poor playing. The teams meet again Tuesday evening when the Tombstones say they will demonstrate to the "kickers" that they can't play ball. It was always thus, "blame it on the umpire."

His Brother Ill.

William Polk, of the Thompson House, was called to Pittsburg yesterday afternoon by the serious illness of his brother. He is ill with typhoid fever, and there is little hope for his recovery.

Badly Burned.

Sissy Green, of Franklin street, was badly burned yesterday about the face and neck. The little girl was just recovering from a severe burn received at the ice plant about a week ago.

Chop the whites of the eggs very fine and add to the dressing.

Card of Thanks.

It is very becoming, at this time, that we should attempt an expression of our grateful appreciation of the many kindnesses extended and sympathy expressed, in words and acts to our dear daughter Sarah in her late illness, and to us, as we have been called to pass through the trying ordeal of our Father's providence, as in His wisdom and mercy it has pleased Him to sever the first loving and beloved link from our family circle.

It has proved the means of revealing to us the kindly disposition of our immediate neighbors, and the many warm friends, too numerous to specify personally, as we never understood them before.

To say that we are thankful, seems to fall far short of conveying the depth of gratitude we feel in our hearts toward each and all of them; and we have not failed to make mention of their kindness as we have talked with our heavenly father at the throne of grace. In conclusion, we would adopt the language of another, with slight changes, to make it express the sentiments of our own hearts, and say:

"You have all been such very kind friends unto us, and your kindness we cannot repay."

But be not afraid, for you shall be repaid by our God at the last judgment day.

FAMINE SHADOWED INDIA.

BY EDWARD S. HUME.

For Twenty-five Years an American Resident of Bombay.

Having just returned from India, I have read the accounts of the famine in American papers, I have seen the pictures, I have seen the conditions in the famine districts, and I can assure you that the actual state of affairs is much more terrible than painted or pictured. And the worst of it is that, even if the June rains are entirely favorable, no relief can be expected till the crop is gathered in October. Famine photographs frequently represent half starved and dying persons lying on the street or in some field. They are poor but self respecting people, who have never been the objects of public charity

HUNGER KILLED WOMAN.

and have refused to go to famine relief camps until at last death has stared them in the face, and unbearable distress has driven them out in search of help. Weary and hungry, they have laid themselves down to rest and have died before waking. Not long before leaving India, while walking with a brother missionary at Ahmedabad, not far from his house, he pointed to a tree at the roadside and said: "The other day I saw the emaciated figure of a man lying, face down, under that tree. On going near and touching the body I found it already stiff and cold. Examining it more carefully, I found one side torn away, evidently eaten by jackals. A couple of rods away lay the dead body of an infant. A little farther on was found a woman, still alive. She was the wife of the man and mother of the child. She, too, poor thing, died before she could reach the poorhouse, which stood within sight and call of the spot where these patient, helpless ones had fallen down to die."

HINDOO PEASANT WOMAN IN HAPPY TIMES

A starving man is devoid of judgment and of most of his natural feelings. In April we received a group of famine girls. Among them was one who, although much emaciated, began to improve from the day she came to us. After a week she rapidly grew worse. In spite of everything that could be done for her she soon died. We learned at last that, while she was so ill that we were giving her a few spoonfuls of nourishment at a time, raising her gently, because she seemed unable to make any effort to help herself, and even later, when she seemed unable to see or to speak, she had been dragging herself at intervals, when we were absent, out into the garden, a distance of 50 yards, in order to get some green mangoes to eat. For the poor famine child they were deadly poison. She knew it, but the awful gnawing in her stomach made prudence impossible.

The only effective preventive to the spread of plague that has yet been discovered is inoculation with plague serum. Wherever an outbreak of the disease is imminent, inoculation stations are opened. Doctors are sent to

them; serum, instruments and everything needed for efficient work are provided, but the Hindoos have not taken kindly to this remedy. All kinds of wild rumors have been spread and have been widely believed to the effect that inoculation is most harmful; that it has been devised by the European doctors to punish the Hindoos for supposed disloyalty and as a means for destroying caste. In view of this the government offers two days' wages to every man, woman or child who is inoculated. I know a little fellow 8 years old, whose mother died and whose father is a helpless invalid. Hearing that money was paid to every person who was willing to be inoculated, this poor

RESCUED FAMINE GIRLS

little lad presented himself at one of the inoculation stations. As soon as his arm was healed he went to another station, and this thing went on until the poor boy had actually been inoculated five times in each arm for the 84 cents he received and with which he supported himself and father for six weeks.

The government has already expended more than \$47,000,000 in the free distribution of food to those who are unable to work and in employing the able-bodied at cash wages in the construction of reservoirs, irrigation ditches and other public works that will mitigate future droughts. In addition, there are generous and splendidly organized systems of private charity, the funds being supplied from every part of the civilized world and managed chiefly by American and European missionaries of long experience in India. It is the duty and privilege of every one to have some share in this sacred work of humanity. Gifts may be sent to Brown Bros. & Co., 59 Wall street, New York, treasurers of the committee of one hundred; William E. Dodge, chairman, and Dr. L. T. Chamberlain, executive director, by whom they will be cabled promptly to the responsible and representative American-Indian relief committee, under the chairmanship of United States Consul William H. Fee, at Bombay, with the veteran missionary, Robert A. Hume, as executive secretary.

The New York committee of one hundred on India famine relief co-operates with committees of the same name in Boston, New Haven, Baltimore, Washington, Indianapolis and other cities, each of which has charge of the work in its own section. The committee states that on receipt of a postal addressed "Committee of One Hundred, 73 Bible House, New York," supplies of illustrated literature are sent without charge and expressage free. The help of individuals, clubs, lodges, labor unions, employers, proprietors of hotels and summer resorts, churches, Sunday schools, young people's societies, King's Daughters, etc., is earnestly sought in distributing this free literature. Many who will lend a hand in this way can aid the cause as much as if they were able to draw a handsome check themselves.

FAMINE CHILDREN FROM GUNGERAT.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Aug. 19.—Comment by Rev. S. H. Doyle, D.D. (Quarterly temperance meeting.)

From the day of the shame and disgrace that came upon Noah, the patriarch, as a result of drunkenness the woes of the drunkard have been unceasing, and intemperance has universally willed its awful legacies to humanity. The drunkard has not ceased to have woes, sorrows, contentions, babbings, wounds, which otherwise he would not have had, and redness of eyes. If all the woes of the world that have been the result of strong drink could be marshaled before our eyes, what a vision of horrors it would be ours to look upon! Who could endure the sight? It would be appalling in its awfulness, and the strongest nerves would be shattered at such a picture. Yet the world goes on making and selling intoxicating drinks, manufacturing drunkards, who as inevitably as the sun shines must some time taste the drunkard's woes! We cannot but exclaim, "O man, how long, how long will you go on in such a destructive way?" and "O Lord, how long, how long will this manufacture of human woes be suffered to go on?" Let us pray and labor in season and out of season for the overthrow of the traffic which makes the woes of the drunkard possible.

1. The drunkard endures physical woes. What physical woes the man brings upon himself who becomes a drunkard! The trembling limbs, the cold breath, the reddened eyes, the

shallow cheeks, speak to us of physical woes which only experience could make it possible for us to appreciate.

2. The drunkard endures mental woes. The physical woes of the drunkard, bad as they are, are not to be compared to his mental ones. What tortures the human mind must endure as a result of this awful, cursed habit! Who could picture the mental anguish of the drunkard? Who could describe the horrors of delirium tremens or all the lesser mental woes that result from the intemperate use of strong drink? They are indescribable. They cannot be comprehended except by those who have suffered them, and may this number grow constantly less until none shall know what these horrors mean.

3. The drunkard endures woes of conscience. How conscience must—yea, does—lash the drunkard in his sobering and sober hours! At times it may be lulled to sleep, but now and again it is aroused like a sleeping lion, and the pains of hell will scarcely be harder to bear than the sufferings of the conscience stricken drunkard, who realizes the consequences of his actions not only to himself, but to his loved ones and his sin against his God.

4. The drunkard will suffer eternal woes. Drunkenness separates from God not only here, but hereafter. "The drunkard shall not enter into heaven." The Scripture pronounces his future doom. Let us not only strive to avoid such woes ourselves, but to keep others from them, and to reclaim by the power of the gospel those who have come under the power of this demon of strong drink.

THE PRAYER MEETING.

Use the United society's programme or arrange a special temperance programme.

BIBLE READINGS.

Lev. x, 8-11; Num. vi, 1-4; Deut. xxi, 18-21; Prov. xx, 1; Isa. v, 11; xxviii, 1-4; Math. v, 13-16; Luke xii, 45, 46; I Cor. v, 11; Gal. v, 19-26.

Grit and Grip.

Grit and grip are small but significant words. They mean much when embodied in action. He in whom they find illustration is no weakling or failure. He is animated by an invincible spirit and by a steady grasp of the situation. He holds on under difficulty and masters opposition. He endures and triumphs. Grit and grip are needed in all life's relations, but especially in the pulpit. The modern preacher must stand by God's truth loyally and firmly and present it fully and faithfully, come what may. He is to show special tenacity and adherence to the gospel at a time when many are calling for something else and when his mettle as a loving, zealous and fearless ambassador of Jesus Christ is being tested.—Presbyterian.

Opportunities.

Opportunities, like everything else, are only of value as one uses them. There is no memory so unforgiving as a scorned opportunity. Like the furies of mythology, it follows on with whips and scorpions. Psyche looks upon Cupid's face but once. Utility alone is possession. The buried talent becomes the property of him who will use it.—Presbyterian Journal.

THREE CARS TOOK PLUNGE.

Train Wrecked on the Lake Shore Railroad—Number Rescued—Some Slightly Injured.

Sandusky, O., Aug. 18.—Lake Shore train No. 3, westbound, struck a broken rail near Bay bridge, about five miles west of Sandusky. The engine and two mail cars passed over the bridge safely. The next three cars, consisting of two mail and a combination car, went over the bridge into Sandusky bay in about 20 feet of water. The rest of the train left the track, but did not go over the bridge, and beyond a severe shaking up and a bad scare no one was injured in these cars. The three cars piled up in a mass in the water below, imprisoning the mail clerks and the passengers in the combination baggage and passenger coach. Not a life was lost, passengers and employees climbing through windows and doors, and being rescued from the water with slight injuries. Five trainmen were injured. They are: BAGGAGEMAN WILLIAM FRAWLEY, of Cleveland, internally injured; CHIEF CLERK J. C. BECK, of Goshen; AL SPALDING, of Adrian; F. R. GREENING, of Austin, near Chicago; B. S. WISE, of Chestertown.

Fourteen passengers were in the combination car, of whom two, names unknown, were cut by flying glass. Their injuries were dressed before the surgeons arrived. The trainmen rescued the 14 imprisoned passengers in the combination coach. The mail clerks in the submerged car were assisted by the employees of the Portland cement works, located near the bridge.

Dun's Notes It Apparently Reached.
Buyers of Different Lines in
New York.

New York, Aug. 18.—There was a conflict at the opening Friday to determine the market's tendency, in which the bears soon obtained the upper hand. In consequence, there was a general sagging of prices, but in no case did the fall reach a point in the railroad list. The most effective selling was in the steel stocks, the group being affected by reports of trade conflicts and expected cuts in products. The important movement of the day centered in Brooklyn Transit and Consolidated Gas. Both stocks, after momentary weakness, started upward and ended with gains. An official announcement that the much-heralded Brooklyn Transit annual report would be given out late today attached interest to the movements in the stock. No definite news accounted for the weakness in the railroad list, but the opinion prevailed that profit-taking was primarily responsible. London purchases of St. Paul failed to sustain the stock despite an increase in the earnings for the second week of August of \$20,234. Foreign purchases were about 12,000 shares in all, the inquiry from London being stimulated by further declines in money and discount rates. In the late dealings an evening up of contracts was effective in wiping out much of the day's losses. Preliminary figures of today's bank statement indicate a loss in cash by the banks of over \$7,000,000. This showing reflects the exports of gold on last Saturday as well as those of this week. But for the gold exports the banks would have gained almost \$5,000,000 on the interior currency movement and pension and interest payments of the sub-treasury. An increase in the loan item of the banks is not considered unlikely in view of the early activity in the stock market.

The bond market showed a reactionary tendency Friday, which was most pronounced in issues known as semi-speculative. Total sales, par value, \$670,000. U. S. 5s declined 1/4 and old 4s 1/4 per cent in the bid price.

Chicago Grain and Provisions.

Chicago, Aug. 18.—September, forced down by liquidation, closed 3/4c lower Friday. Corn closed 1/4c higher and oats 1/4c down. Provisions were irregular, pork closing 35c lower, lard 5c 1/4c depressed and ribs unchanged.

FOR A UNIFORM B. & O. SCHEDULE.

Conference of Operating Officials Held at Wheeling.

Wheeling, Aug. 18.—A conference of the operating department of the entire Baltimore and Ohio system was held here, at which the fall schedules were discussed. In the past the style of schedule get-up on the Baltimore and Ohio has not been uniform on all divisions, and it is to make all uniform that the officials gathered here. The fall schedule will be uniform on all divisions, as will all future schedules. In the party were the following officials:

General Superintendent Thomas Fitzgerald, of Baltimore; General Superintendent Stewart, of Chicago; General Superintendent William Gibson, of Pittsburg; General Superintendent Johnson, of Cleveland; Superintendent of Transportation D. F. Maroney, of Baltimore; Division Superintendent F. A. Husted, of Grafton; Schedule Agent J. B. Frost, of Baltimore; Division Superintendent English, of Newark, O., and others.

General Superintendent Fitzgerald admitted that the Baltimore and Ohio would likely use the Wheeling Terminal passenger station, and said a definite announcement along this line would be made soon.

Scranton, Pa., Aug. 18.—The first legislative district Democrats nominated Timothy Hayes, an officer in the United Mine Workers' assembly, to oppose T. J. Reynolds, a neutral Republican.

Topic For the Week Beginning Aug. 19, "The Woes of the Drunkard." Text, Prov. xxiii, 29-35.

"At the last it biteth like a serpent and stingeth like an adder."

From ancient times the evil effects of alcoholic liquors have not changed. Some kinds may be more dangerous than others, but all kinds are too dangerous to be used as a beverage. No man can safely use them except in case of extreme necessity and then under the most skilled medical advice. Even in such cases there arise questions as to the risk run. Some persons would better die than use alcoholics under any circumstances. Cases of reformed persons are not rare where a dose of brandy or other spirits would be almost certain to awaken an old appetite and result in a return to former courses of drunkenness. Better for such a one to refuse to use it even as a medicine than to invite almost certain ruin.

The Workingmen's Problem.

The saloon question has long been the storm center of the temperance movement. All attempts to control it by legislation thus far have failed to reach the desired end. License and prohibition have both proved inadequate to restrict.

The plea for the saloon has been that it is the poor man's club and he has as much right to his social enjoyment as the rich man in his club. The saloon is largely supported by workingmen. All attempts to suppress it by showing its great cost and the poverty it brings on the poor man's family by squandering of wages, by violence and vice as a result of drunkenness have accomplished little comparatively. In spite

of all reform efforts the evil grows. Vice, crime, distress, disease, discontent, increase enormously.

One new element, however, appears and gives hope. Workingmen's unions are becoming a power in the industrial world. The laborers of every kind are banding together in stronger association than ever was before known. They are becoming associated and federated for help in cases of need. When any trade is refused its rights and a strike is ordered, the union assists to support the strikers. But the questions have arisen: Shall drinking men be helped? Shall the funds of the society be used to help the family of the men out of work only, or shall the saloon also be allowed to get a share? Some trades unions are making total abstinence a feature of their associations. If this can be enlarged, we have in it a far greater power for the suppression of the saloon than any which has hitherto appeared.

Let the workingmen have their benevolent and co-operative societies and aid each other. A proper regard for safety will suggest that help cannot be given any family to be spent in beer and whisky, but all assistance must be for food, shelter and the necessities of life. Success to all unions which help the laboring man to a wider, higher, purer life! The hand of help is the hand of strength.

His Only Fear.

The undaunted Corporal Calithness, so conspicuously daring in a "pinch" at the battle of Waterloo, was asked if he did not fear they should lose the day.

"No, no," said he. "I knew we could not do that. My only fear was that we should all be killed before we had time to win it."

Judge Rice for Chief Justice.

Wilkesbarre, Pa., Aug. 18.—It is said that at the proper time the friends in this city of President Judge Charles E. Rice, of the superior court, will bring his name before Governor Stone for appointment to the supreme court bench to fill the vacancy caused by the death of Chief Justice Green.
